Low Profile William Petrocelli, 1981 *How to Avoid the Privacy Invaders* Gordon Press Publishers, 1991-07

The Health Care Manager's Human Resources Handbook Charles R. McConnell, 2013 McConnell provides a resource for healthcare department managers who must relate to and work with their HR departments and manage their personnel He explores strategies to gain the most value out of an organization's HR department

Electoral Bait and Switch Bill Petrocelli, 2020-09-04 It's a system that now fosters massive inequality in voting rights and opens the door to manipulation of presidential elections by foreign and domestic enemies of democracy Electoral Bait Switch is prescriptive and accessible to the general reader The current Electoral Vote system presents a severe and growing threat to democracy in the United States It has thwarted the will of a majority of the voters twice in the last five presidential elections 2000 and 2016 by elevating to office a candidate who received only a minority of the vote This system is a distortion of the system envisioned by Alexander Hamilton James Madison and the other framers of the Constitution If it is not challenged and overturned we are likely to face a continual series of electoral and constitutional crises The constitutional right of Americans to an equal vote in presidential elections is being violated by this system on a massive scale The value of an individual vote varies as much as three to one from state to state and there are no two states where voters have the same voting power The current Electoral system discriminates heavily against minority and poorer voters The winner take all method of allocating Electoral votes also results in large pockets of useless votes and a system in which where you vote counts for far more than how you vote Most ominously evidence is now clear that the Electoral Vote system has opened the door for voter suppression and manipulation of elections by domestic and foreign conspirators

Privacy and Its Invasion Deckle McLean, 1995-11-06 Privacy We want lots of it for ourselves We love to invade the privacy of others We are willing to trade it for benefits of all kinds including credit social services and friendship Why is this Where should we draw a line How should we handle our ambivalence in an era in which privacy often appears to be under official attack This book explores such questions by rooting into scarce literature to explain why privacy is such a strong need reviewing a variety of methods for guarding privacy and concluding that at one time America was a very fortunate place privacy wise McLean examines problem areas in which privacy invasions play or have played large roles Rape and sexual offenses are analyzed so too is news reporting that touches private matters and race relations Privacy and its Invasion also has a point to make that privacy despite its dark side is an idea whose time has come an ancient need that now requires explicit endorsement and protection as a value A thought provoking examination of something we have come to regard as a basic right but a right under assault this book is for all concerned with contemporary social and legal issues civil liberties and communications
