Lower Class Heresy:

Religious Movements in the Middle Ages Herbert Grundmann, 1995-01-31 Medievalists historians and women's studies specialists will welcome this translation of Herbert Grundmann's classic study of religious movements in the Middle Ages because it provides a much needed history of medieval religious life one that lies between the extremes of doctrinal classification and materialistic analysis and because it represents the first major effort to underline the importance of women in the development of the language and practice of religion in the Middle Ages

Marxism and Human Nature Sean Sayers, 2013-01-11 Is there such a thing as human nature Here Sean Sayers defends the controversial theory that human nature is in fact an historical phenomenon He gives an ambitious and wide ranging defence of the Marxist and Hegelian historical approach and engages with a wide range of work at the heart of the contemporary debate in social and moral philosophy

Zinoviy Otenskiy and the Trinitarian Controversy in Sixteenth-Century Russia Viacheslav V. Lytvynenko, Mikhail V. Shpakovsky, 2023-03-13 In *Zinoviy Otenskiy and the Trinitarian Controversy* Viacheslav V. Lytvynenko and Mikhail V. Shpakovsky offer the first English edition of two major Slavic works written by the eminent Russian theologian Zinoviy Otenskiy d. 1571 2 The selected texts represent our chief source on the Trinitarian controversy in sixteenth century Russia and reveal Zinoviy as a man of profound theological thinking and Biblical exegesis The authors provide a detailed and welcome overview of the history of the Trinitarian controversy and the role that Zinoviy played in it The readers will find here a comprehensive discussion of the issues related to the history of the edited texts Zinoviy's sources and his doctrines of the Trinity Christ and salvation

Milton and the English Revolution Christopher Hill, 2020-01-14 Remarkable reinterpretation of Milton and his poetry by one of the most famous historians of the 17th Century In this remarkable book Christopher Hill used the learning gathered in a lifetime's study of seventeenth century England to carry out a major reassessment of Milton as man politician poet and religious thinker The result is a Milton very different from most popular imagination instead of a gloomy sexless Puritan we have a dashing original thinker branded with the contemporary reputation of a libertine For Hill Milton is an author who found his real stimulus less in the literature of classical and times and more in the political and religious radicalism of his own day Hill demonstrates with originality learning and insight how Milton's political and religious predicament is reflected in his classic poetry particularly *Paradise Lost* and *Samson Agonistes*

Radical Pastoral, 1381-1594 Mike Rodman Jones, 2016-04-22 From William Langland's *Piers Plowman* through the highly polemicized literary culture of fifteenth century Lollardy to major Reformation writers such as Simon Fish William Tyndale and John Bale and into the 1590s this book argues for a vital reassessment of our understanding of the literary and cultural modes of the Reformation It argues that the ostensibly revolutionary character of early Protestant literary culture was deeply indebted to medieval satirical writing and indeed can be viewed as a remarkable crystallization of the textual movements and polemical personae of a rich combative tradition of medieval writing which is

still at play on the London stage in the age of Marlowe and Shakespeare Beginning with a detailed analysis of *Piers Plowman* this book traces the continued vivacity of combative satirical personae and self fashionings that took place in an appropriative movement centred on the figure of the medieval labourer The remarkable era of Protestant plowman polemics has too often been dismissed as conventional or ephemeral writing too stylistically separate to be linked to *Piers Plowman* or held under the purview of historians who have viewed such texts as sources of theological or documentary information rather than as vital literary cultural works in their own right Radical Pastoral 1381 1594 makes a vigorous case for the existence of a highly politicised tradition of polemical pastoral which stretched across the whole of the sixteenth century a tradition that has been largely marginalised by both medievalists and early modernists *Contesting Christendom* James L.

Halverson, 2008 The pervasiveness of the Christian religion has long been treated as one of the key features of medieval society Indeed Europe in the Middle Ages is often described simply as a Christian culture Yet what do we mean when we say that medieval Europe was a Christian society and what did it mean to be a Christian in the Middle Ages These questions are fundamental to any understanding of the Middle Ages yet the variety of theoretical approaches and conclusions represented in this carefully selected and provocative collection of key works in the field highlights the complexity of the answers Introducing students to medieval Christianity James L Halverson presents a rich array of readings that offers a variety of ways to study the history of religion within a chronological setting His opening chapter and introductions to each section and selection frame the essays and provide a strong conceptual framework to build upon Making it clear that scholars have approached religion from many perspectives and used many different methodologies this collection presents some of the best scholarship of religion as culture and practice emphasizing the ongoing attempt to understand the social and cultural aspects of medieval Christianity Contributions by Rudolf Bell Constance Brittain Bouchard Peter Brown Marcus Bull Caroline Walker Bynum Mark R Cohen Georges Duby Eamon Duffy Joan Ferrante Richard Fletcher Katherine L French Thomas A Fudge Herbert Grundmann James L Halverson Karen Louise Jolly Lester Little Rob Means Bernd Moeller Andrew P Roach Jane Tibbets Schulenburg Keith Thomas and Ian Wood **Algernon Swinburne and Walter Pater** Sarah Glendon

Lyons, 2017-07-05 How did literary aestheticism emerge in Victorian Britain with its competing models of religious doubt and visions of secularisation For Lyons the aestheticism developed and progressively revised by Algernon Charles Swinburne 1837 1909 and Walter Pater 1839 1894 illuminates the contradictory impulses of modern secularism on the one hand a desire to cast itself as a form of neutrality or disinterestedness on the other a desire to affirm this world as the place of human flourishing or even enchantment The standard narrative of a crisis of faith does not do justice to the fissured uncertain quality of Victorian visions of secularisation Precisely because it had the status of a confusing hypothesis rather than a self evident reality it provoked not only dread and melancholia but also forms of fantasy Within this context Lyons gives a fundamentally new account of the aims and nature of Victorian aestheticism taking as a focus its deceptively simple

claim that art is for art's sake first of all *Southbound* Ernest Suarez, T. W. Stanford, Amy Verner, 1999 There's a real flowering I think of southern poetry right now assembling at the edges of everything This observation by Pulitzer Prize winning poet Charles Wright reflects upon the continuing vibrancy and importance of the southern poetic tradition Although the death of James Dickey in 1997 left southern poetry without a recognizably dominant voice an array of other vibrant voices continue to be heard and recognized *Southbound Interviews with Southern Poets* provides a glimpse of the many poets who promise to keep southern poetry vital into the twenty first century **Society and Puritanism in Pre-revolutionary**

England Christopher Hill, 2018-09-25 How Puritanism made modern Britain In order to understand the English Revolution and Civil War it is essential to get a grasp on the nature of Puritanism In this classic work of social history Christopher Hill reveals Puritanism as a living faith one responding to social as well as religious needs It was a set of beliefs that answered the hopes and fears of yeomen and gentlemen as well as merchants and artisans in a time of tribulation and extraordinary turbulence Over this period Puritanism was interwoven into daily life Here Hill looks at how rituals and practices such as oath taking the Sabbath bawdy courts and poor relief offered a way to bring order to social upheaval He even offers an explanation for the emergence of the seemingly paradoxical figure of the age the Puritan revolutionary **Voices of the Reformation** John A. Wagner, 2015-05-05 This fascinating collection of primary source documents furnishes the accounts in their own words of those who initiated advanced or lived through the Reformation Starting in 1500 Europe transformed from a united Christendom into a continent bitterly divided between Catholicism and Protestantism by the end of the century This illuminating text reveals what happened during that period by presenting the social religious economic political and cultural life of the European Reformation of the 16th century in the words of those who lived through it Detailed and comprehensive the work includes 60 primary source documents that shed light on the character personalities and events of that time and provides context questions and activities for successfully incorporating these documents into academic research and reading projects A special section provides guidelines for better evaluating and understanding primary documents Topics include late medieval religion Martin Luther reformation in Germany and the Peasants War the rise of Calvinism and the English Reformation
