Co-habiting with Ghosts Caron Lipman, 2016-05-23 How does it feel to live in a haunted home How do people negotiate their everyday lives with the experience of uncanny anomalous or strange events within the domestic interior What do such experiences reveal of the intersection between the material immaterial and temporal within the home How do people interpret share and narrate experiences which are uncertain and unpredictable What does this reveal about contested beliefs and different forms of knowledge And about how people co habit with ghosts a distinctive self other relationship within such close quarters This book sets out to explore these questions It applies a non reductive middle ground approach which steers beyond an uncritical exploration of supernatural experiences without explaining them away by recourse only to wider social and cultural contexts The book attends to the ways in which households in England and Wales understand their experience of haunting in relation to ideas of subjectivity gender materiality memory knowledge and belief It explores home as a place both dynamic and differentiated illuminating the complexity of everyday experience the familiarity of the strange as well as the strangeness of the familiar and the ways in which home continues to be configured as a distinctive space

Pilgrims of the Night Lars B. Lindholm, 1993 Here is a fresh unprejudiced and exceptionally readable examination of the

evolution of magical theory and practice in Western culture In his often humorous style Lars B Lindholm traces the history of magic from the earliest times to modern encountering colorful personalities such as Thomas Aquinas Henry Cornelius Agrippa John Dee and Aleister Crowley along the way **Syzygy** ,1992 *American Book Publishing Record* ,1991 **The publishers weekly** ,1991 American Bookseller ,1990 *Forthcoming Books* Rose Army,1998 Ritual Embodiment in Modern Western Magic Damon Zacharias Lycourinos,2017-11-15 In the Western world magic has often functioned as an umbrella term for various religious beliefs and ritual practices that seek to influence events by harnessing supernatural power The definition of these myriad occult and esoteric traditions have however usually come from those that are opposed to its practice notably authorities in religious legal and intellectual spheres This book seeks to provide a new perspective directly from the practitioners of modern Western magic by exploring how a distinctive mode of embodiment and consciousness can produce a transition from an ordinary to a magical worldview Starting with an introduction to the study of magic in the Western academy the book then presents the author s own participant observation of five ethnographic case studies of modern Western magic The focus of these ethnographic case studies is directed towards ideas and methods the informants employ to self legitimise and self represent as magicians It concludes by discussing the phenomenological implications and issues around embodiment that are inherent to the contemporary practice of magic This is a unique insight into the lived experience of practitioners of modern magic As such it will be of keen interest to scholars of the Occult and New Religious Movements as well as Religious Studies academics examining issues around the embodiment and the anthropology of religion **Subject Guide to Books in Print** ,1993 The Cumulative Book Index ,1992 A world list of books in the English language Paperbound Books in Print ,1992 Bibliographic Guide to Psychology New York Public Library.
