Magic In Greek And Latin Literature 1929:

Magic in Greek and Latin Literature J. E. Lowe, 2013-10 This is a new release of the original 1929 edition **The Journal of Hellenic Studies** ,1929 The Year's Work in Classical Studies ... Classical Association (Great Britain), 1928
The Year's Work in Classical Studies ,1929 Magic in Apuleius' >Apologia< Leonardo Costantini, 2019-01-14 Despite the growing interest in Apuleius *Apologia* or *Pro se de magia* a speech he delivered in AD 158-159 to defend himself against the charge of being a magus the only comprehensive study on this speech and magic to date is that by Adam Abt 1908 The aim of this volume is to shed new light on the extent to which Apuleius' speech reveals his own knowledge of magic and on the implications of the dangerous allegations brought against Apuleius By analysing the *Apologia* sequentially the author does not only reassess Abt's analysis but proposes a new reconstruction of the prosecution's case arguing that it is heavily distorted by Apuleius Since ancient magic is the main topic of this speech an extensive discussion of the topic is provided offering a new semantic taxonomy of magus and its cognates Finally this volume also explores Apuleius' forensic techniques and the Platonic ideology underpinning his speech It is proposed that a Platonising reasoning distinguishing between higher and lower concepts lies at the core of Apuleius' rhetorical strategy and that Apuleius aims to charm the judge the audience and ultimately his readers with the irresistible power of his arguments *The Classical Review* ,1929 **Magic, Witchcraft, and Ghosts in the Greek and Roman Worlds** Daniel Ogden, 2002 In a culture where the supernatural possessed an immediacy now strange to us magic was of great importance both in the literary/mythic tradition and in ritual practice In this book Daniel Ogden presents 300 texts in new translations along with brief but explicit commentaries Authors include the well-known Sophocles Herodotus Plato Aristotle Virgil Pliny and the less familiar and extend across the whole of Graeco-Roman antiquity *Magic in Greek & Latin Literature* Joyce Egerton Lowe, 1929 The Black Arts (50th Anniversary Edition) Richard Cavendish, 1968-01-17 The Classic Study of the Occult Reintroduced in a 50th Anniversary Edition *The Black Arts* is a fascinating and wonderfully readable exploration of the practice theory and underlying rationale of magic and occultism in all its branches including witchcraft spells numerology astrology alchemy kabbalah tarot charms and summoning and control of spirits This edition features a 50th anniversary introduction by historian of alternative spirituality Mitch Horowitz who frames the book for a new generation of readers New Testament Texts on Greek Amulets from Late Antiquity Brice C. Jones, 2016-03-24 Brice C. Jones presents a comprehensive analysis of Greek amulets from late antiquity/early Byzantine which contain New Testament citations He evaluates the words they contain in terms of their text-critical value The use of New Testament texts on amulets was common in late antiquity These citations were extracted from their larger Biblical contexts and used for ritual purposes that have traditionally been understood in terms of the ambiguous category of magic Often these citations were used to invoke the divine for some favour healing or protection For various reasons however these citations have not played a significant role in the study of the text of the Greek New Testament As

such this is the first systematic treatment of Greek New Testament citations on amulets from late antique Egypt Jones work has real implications for how amulets and other such witnesses from this era should be treated in the future of the discipline of New Testament textual criticism *The Journal of Roman Studies*, 1929 Includes Proceedings of the society report of the council lists of members etc

Christopher A. Faraone, Dirk Obbink, 1997-02-13 This collection challenges the tendency among scholars of ancient Greece to see magical and religious ritual as mutually exclusive and to ignore magical practices in Greek religion The contributors survey specific bodies of archaeological epigraphical and papyrological evidence for magical practices in the Greek world and in each case determine whether the traditional dichotomy between magic and religion helps in any way to conceptualize the objective features of the evidence examined Contributors include Christopher A Faraone J H M Strubbe H S Versnel Roy Kotansky John Scarborough Samuel Eitrem Fritz Graf John J Winkler Hans Dieter Betz and C R Phillips

Subversive Virtue James A. Francis, 1995 Much attention has been devoted in recent years to Christian asceticism in Late Antiquity But Christianity did not introduce asceticism to the ancient world An underlying theme of this fascinating study of pagan asceticism is that much of the work on Christian holy men has ignored earlier manifestations of asceticism in Antiquity and the way Roman society confronted it Accordingly James Francis turns to the second century the balmy late afternoon of Rome s classical empire when the conflict between asceticism and authority reached a turning point Francis begins with the emperor Marcus Aurelius 121 180 who warned in his Meditations against displaying oneself as a man keen to impress others with a reputation for asceticism or beneficence The Stoic Aurelius saw ascetic self discipline as a virtue but one to be exercised in moderation Like other Roman aristocrats of his day he perceived practitioners of ostentatious physical asceticism as a threat to prevailing norms and the established order Prophecy sorcery miracle working charismatic leadership expressions of social discontent and advocacy of alternative values regarding wealth property marriage and sexuality were the issues provoking the controversy If Aurelius defined the acceptable limits of ascetical practice then the poet Lucian depicted the threat ascetics were perceived to pose to the social status quo through his biting satire In an eye opening analysis of Philostratus s Life of Apollonius of Tyana Francis shows how Roman society reined in its deviant ascetics

by rehabilitating them into pillars of traditional values Celsus's True Doctrine shows how the views pagans held of their own ascetics influenced their negative view of Christianity Finally Francis points out striking parallels between the conflict over pagan asceticism and its Christian counterpart By treating pagan asceticism seriously in its own right Francis establishes the context necessary for understanding the great flowering of asceticism in Late Antiquity

Satire and the Threat of Speech Catherine M. Schlegel,2005-12-29 In his first book of Satires written in the late violent days of the Roman republic Horace exposes satiric speech as a tool of power and domination Using critical theories from classics speech act theory and others Catherine Schlegel argues that Horace s acute poetic observation of hostile speech provides insights into the operations of verbal control that are relevant to his time and to ours She demonstrates that though Horace is forced by his political circumstances to develop a new unthreatening style of satire his poems contain a challenge to our most profound habits of violence hierarchy and domination Focusing on the relationships between speaker and audience and between old and new style Schlegel examines the internal conflicts of a notoriously difficult text This exciting contribution to the field of Horatian studies will be of interest to classicists as well as other scholars interested in the genre of satire
