Magic Landscapes:

Film Landscapes Graeme Harper, Jonathan Rayner, 2014-08-26 This book brings together critical and theoretical essays examining the connections between films and landscapes It showcases the work of established and emerging academics whose research probes the complex relationships between moving images and the filmed environment and accounts for the impactful effects of viewing lived spaces and human places on screen The essays in this collection actively engage with examples of contemporary popular and art cinema genre films and auteur canon historical films propaganda documentary and animation in their explorations of the meanings with which filmed landscapes are endowed and invested The breadth of the study is matched by the depth of the interest with writers here approaching the subject of film landscapes as critics as film practitioners and as teachers of film studies and film making *Film Landscapes* gives voice to a great many ideas and includes coverage of a great many films but it also points forward to ways in which we might revisit discussions of the environments of film and consider ways in which history and creativity critical understanding and the interaction of human beings and place could be reconsidered and revised to produce new insights

Designing for Play Ms Barbara E Hendricks, 2013-06-28 10 years ago Barbara Hendricks brought together thinking from child development and child psychology perspectives on play with practical issues confronted by designers and policy makers The result was a beautifully crafted well illustrated guide challenging established notions of play provision This second edition brings the text up to date from 2001 to 2010 with added discussion about new ideas for play area designs and what has not worked in the past decade

Designing for Play Barbara Hendrickson, 2018-12-13 This title was first published in 2001 Architects landscape designers builders gardeners and teachers have all at some time been called upon to design a play area Unfortunately this diversity has not resulted in a similar diversity of design solutions for this very problematic task Despite a proliferation of how to books on this subject playgrounds have remained virtually the same throughout the world since their creation over a century ago This is not a how to design book Instead based on thirty years experience as a specialist play area designer Barbara Hendricks details a radically new approach applying cutting edge thinking from child development and child psychology to find innovative design solutions challenging the established notions of play provision Covering key sociological public policy environmental and design issues this book provides designers with an exploration of and guide to designing from a child s eye view of the world Beautifully crafted and copiously illustrated with numerous examples of recently designed playgrounds this book is not only stimulating and informative but fun to read and seriously playful in itself

Stewart,2020-04-21 The hero stands on stage in high definition 3 D while doubled on a crude pixel screen in Billy Lynn's Long Halftime Walk Alien ships leave Earth by dissolving at the conclusion of Arrival An illusory death spiral in Vertigo transitions abruptly to a studio set jolting the spectator These are a few of the startling visual moments that Garrett Stewart examines in Cinemachines a compelling powerful and witty book about the cultural and mechanical apparatuses that underlie modern cinema Engaging in fresh ways with revelatory special effects in the history of cinematic storytelling from Buster Keaton's breaching of the film screen in Sherlock Jr to the pixel disintegration of a remotely projected hologram in Blade Runner 2049 Stewart's book puts unprecedented emphasis on technique in moving image narrative Complicating and revising the discourse on historical screen processes Cinemachines will be crucial reading for anyone interested in the evolution of the movies from a celluloid to a digital medium

My Miscellanies Vol 1 & 2 Wilkie Collins,2021-02-17 Excerpt My object in writing most of these papers especially those collected under the general heads of Sketches of Character and Social Grievances was to present what I had observed and what I had thought in the lightest and the least pretentious form to address the public if I could with something of the ease of letter writing and something of the familiarity of friendly talk The literary Pulpit appeared to me at that time as it appears to me still to be rather overcrowded with the Preachers of Lay Sermons Views of life and society to set us thinking penitently in some cases or doubting contemptuously in others were I thought quite plentiful enough already More freshness and novelty of appeal to the much lectured and much enduring reader seemed to lie in views which might put us on easier terms with ourselves and with others and which might encourage us to laugh good humouredly over some of the lighter eccentricities of character and some of the more palpable absurdities of custom without any unfair perversion of truth or any needless descent to the lower regions of vulgarity and caricature With that idea all the lighter contributions to these Miscellanies were originally written and with that idea they are now again dismissed from my desk to win what approval they may from new readers

A Miscellany of Men Gilbert Keith Chesterton,1912 **Ploughing the Clouds** Peter Lamborn Wilson,2021-10-20 The Rig Veda written in India about 1500BC praises a holy plant called Soma which is sacrificed and consumed granting the drinker an experience of enlightenment and ecstasy The late Gordon Wasson identified Soma as a magic mushroom Amanita muscaria and he and his followers discovered that such Indo Europeans as the ancient Greeks Iranians and Norse had also used a Soma type plant In Ploughing the Clouds Peter Lamborn Wilson investigates the probability of a Soma cult in ancient Ireland tracing clues in Irish and other Celtic lore By comparing Celtic folktales romances epics and topographic lore with the Rig Veda he uncovers the Irish branch of the great Indo European tradition of psychedelic or entheogenic shamanism and even reconstructs some of its secret rituals He uses this comparative material to illuminate the deep meaning of the Soma function in all cultures the entheogenic origin of poetic frenzy the link between intoxication and inspiration
