form By debunking these false narratives the book aims to restore accuracy and promote a more nuanced appreciation of cinematic achievements The book progresses by first introducing core concepts of film myth making then dedicating individual chapters to specific myths The book concludes with a discussion of the broader implications of film myths including their role in shaping popular culture This unique approach combines rigorous research with accessible storytelling offering critical viewing strategies to help readers discern fact from fiction in their own film experiences

The Power of Movies Colin McGinn, 2007-02-13 How is watching a movie similar to dreaming What goes on in our minds when we become absorbed in a movie How does looking into a movie screen allow us to experience the thoughts and feelings of a movie's characters These and related questions are at the heart of *The Power of Movies* a thoughtful invigorating and remarkably accessible book about a phenomenon seemingly beyond reach of our understanding Colin McGinn an ingenious philosopher who thinks like a laser and writes like a dream according to Steven Pinker enhances our understanding of both movies and ourselves in this book of rare and refreshing insight

The Monomyth in American Science Fiction Films Donald E. Palumbo, 2014-11-05 One of the great intellectual achievements of the 20th century Joseph Campbell's *The Hero with a Thousand Faces* is an elaborate articulation of the monomyth the narrative pattern underlying countless stories from the most ancient myths and legends to the films and television series of today The monomyth's fundamental storyline in Campbell's words sees the hero venture forth from the world of the common day into a region of supernatural wonder fabulous forces are there encountered and a decisive victory is won the hero comes back from this mysterious adventure with the power to bestow boons to his fellow man Campbell asserted that the hero is each of us thus the monomyth's endurance as a compelling plot structure This study examines the monomyth in the context of Campbell's *The Hero* and discusses the use of this versatile narrative in 26 films and two television shows produced between 1960 and 2009 including the initial *Star Wars* trilogy 1977 1983 *The Time Machine* 1960 *Logan's Run* 1976 *Escape from New York* 1981 *Tron* 1982 *The Terminator* 1984 *The Matrix* 1999 the first 11 *Star Trek* films 1979 2009 and the Sci Fi Channel's miniseries *Frank Herbert's Dune* 2000 and *Frank Herbert's Children of Dune* 2003

Movies in the Age of Obama David Garrett Izzo, 2014-08-26 The historic election of Barack Obama to the presidency of the United States had a significant impact on both America and the world at large By voting an African American into the highest office those who elected Obama did not necessarily look past race but rather didn't let race prevent them from casting their ballots in his favor In addition to reflecting the changing political climate Obama's presidency also spurred a cultural shift notably in music television and film In *Movies in the Age of Obama: The Era of Post Racial and Neo Racist Cinema* David Garrett Izzo

presents a varied collection of essays that examine films produced since the 2008 election. The contributors to these essays comment on a number of films in which race and otherness are pivotal elements. In addition to discussing such films as *Beasts of the Southern Wild*, *Black Dynamite*, *The Blind Side*, *The Butler*, *Django Unchained*, *The Help*, and *Invictus*, this collection also includes essays that probe racial elements in *The Great Gatsby*, *The Hunger Games*, and *The Mist*. The volume concludes with several essays that examine the 2013 Academy Award winner for best picture, *12 Years a Slave*. Though Obama's election may have been the main impetus for a resurgence of black films, this development is a bit more complicated. Moviemakers have long responded to the changing times, so it is inevitable that the Obama presidency would spark an increase in films that comment either subtly or overtly on the current cultural climate. By looking at the issue, these films address movies in the Age of Obama. They will be of value to film scholars of course, but also to those interested in other disciplines including history, politics, and cultural studies.

Cinematic Mythmaking Irving Singer, 2010-09-24. Mythic themes and philosophical probing in film as an art form, as seen in works of Preston Sturges, Jean Cocteau, Stanley Kubrick, and various other filmmakers. Film is the supreme medium for mythmaking. The gods and heroes of mythology are both larger than life and deeply human; they teach us about the world, and they tell us a good story. Similarly,

our experience of film is both distant and intimate Cinematic techniques panning tracking zooming and the other tools in the filmmaker s toolbox create a world that is unlike reality and yet realistic at the same time We are passive spectators but we also have a personal relationship with the images we are seeing In Cinematic Mythmaking Irving Singer explores the hidden and overt use of myth in various films and in general the philosophical elements of a film s meaning Mythological themes Singer writes perform a crucial role in cinematic art and even philosophy itself Singer incisively disentangles the strands of different myths in the films he discusses He finds in Preston Sturges s The Lady Eve that Barbara Stanwyck s character is not just the biblical Eve but a liberated woman of our times Eliza Doolittle in the filmed versions of Shaw s Pygmalion is not just a statue brought to life but instead a heroic woman who must survive her own dark night of the soul The protagonist of William Wyler s The Heiress and Anieszka Holland s Washington Square is both suffering Dido and an awakened Amazon Singer reads Cocteau s films including La Belle et la B te Orph e and The Testament of Orpheus as uniquely mythological cinematic poetry He compares Kubrickean and Homeric epics and analyzes in depth the self referential mythmaking of Federico Fellini in many of his movies including 8 The aesthetic and probing inventiveness in film Singer shows us restores and revives for audiences in the twenty first century myths of creation of the questing hero and of ideals both secular and religious that have had enormous significance throughout the human search for love and meaning in life

Ingmar Bergman, Cinematic Philosopher Irving Singer, 2009-09-18 The development of themes motifs and techniques in Bergman's films from the first intimations in the early work to the consummate resolutions in the final movies Known for their repeating motifs and signature tropes the films of Ingmar Bergman also contain extensive variation and development In these reflections on Bergman's artistry and thought Irving Singer discerns distinctive themes in Bergman's filmmaking from first intimations in the early work to consummate resolutions in the later movies Singer demonstrates that while Bergman's output is not philosophy on celluloid it attains an expressive and purely aesthetic truthfulness that can be considered philosophical in a broader sense Through analysis of both narrative and filmic effects Singer probes Bergman's mythmaking and his reliance upon the magic inherent in his cinematic techniques Singer traces throughout the evolution of Bergman's ideas about life and death and about the possibility of happiness and interpersonal love In the overtly self referential films that he wrote or directed *The Best Intentions* *Fanny and Alexander* *Sunday's Children* as well as the less obviously autobiographical ones including *Wild Strawberries* *The Seventh Seal* and the triad that begins with *Through a Glass Darkly* Bergman investigates problems in his existence and frequently reverts to childhood memories In such movies as *Smiles of a Summer Night* *Scenes from a Marriage* and *Saraband* Bergman draws upon his mature experience and depicts the troubled relationships between men who are often weak and women who are made to suffer by the damaged men with whom they live In *Persona* *Cries and Whispers* and other works his experiments with the camera are uniquely masterful Inspecting the panorama of Bergman's art Singer shows how the endless search for human contact motivates the content of his films and reflects Bergman's profound perspective on the world
