Sebeok,2013-11-11 My writing career has been at least in this one respect idiosyncratic it had to mark and chart step by step its own peculiar campaign My earliest papers beginning in 1942 were technical articles in this or that domain of Uralic linguistics ethnography and folklore with a sprinkling of contributions to North and South American linguistics In 1954 my name became fecklessly associated with psycholinguistics then successively with explorations in my thology religious studies and stylistic problems It now takes special effort for me to even revive the circumstances under which I came to publish in 1955 a hefty tome on the supernatural another in 1958 on games and yet another in 1961 utilizing a computer for extensive sorting of literary information By 1962 I had edged my way into animal communication studies Two years after that I first whiffled through what Gavin Ewart evocatively called the tulgey wood of semiotics In 1966 I published three books which tem porarily bluffed some of my friends into conjecturing that I was about to meta morphose into a historiographer of linguistics The topmost layer in my scholarly stratification dates from 1976 when I started to compile what eventually became my semiotic tetralogy of which this volume may supposably be the last In the language of Jabberwocky the word tulgey is said to connote variability and evasiveness This notwithstanding the allusion seems to me apt Chicken Soup for the Soul: The Magic of Christmas Amy Newmark,2022-10-11 Let the magic of Christmas brighten your winter days These
