*Religion as Magical Ideology* Konrad Talmont-Kaminski, 2014-10-20 Religion as Magical Ideology examines the relationship between rationality and supernatural beliefs arguing that such beliefs are products of evolution cognition and culture The book does not offer a false rapprochement between reason and religion instead it explores their interrelationship as a series of complex adaptations between cognitive and cultural processes Exploring the nature of the tension between religious traditions and reason Religion as Magical Ideology develops a dual inheritance theory of religion which combines the cognitive byproduct and prosocial adaptation accounts and analyses the connection between the function of a belief and the degree of protection it gets from potential counter evidence With discussion ranging from individual cognitive mechanisms general functional considerations to the limits of evolutionary and cognitive processes the book offers readers a systematic account of how cognition shapes religious beliefs and practices      **Magic and the Supernatural in Medieval**

**English Romance** Corinne J. Saunders, 2010 This study looks at a wide range of medieval English romance texts including the works of Chaucer and Malory from a broad cultural perspective to show that while they employ magic in order to create exotic escapist worlds they are also grounded in a sense of possibility and reflect a complex web of inherited and current ideas Book Jacket      **Cultural Anthropology** Stephen A. Grunlan, Marvin K. Mayers, 2016-11-22 This volume on cultural

anthropology presents a Christian perspective for Bible school students of conservative evangelical backgrounds The hope is that a sympathetic approach to the problems of cultural diversity throughout the world will help young people overcome typical North American cultural biases and bring understanding and appreciation for the diversities of behavior and thought that exist in a culturally heterogeneous world Grunlan and Mayers take the position of functional creationism and though they discuss some of the problems implied in traditional interpretations of the age of the world and especially of the creation of the human race they do not attempt to deal with either physical anthropology or the origins of man They do however attempt to deal meaningfully with the problems posed by biblical absolutism and cultural relativism and their practice Concluding chapters with a series of thought provoking questions should prove to be of real help to both the professional and nonprofessional teacher of anthropology      **Encyclopedia of Demons in World Religions and Cultures** Theresa

Bane, 2014-01-10 This exhaustive volume catalogs nearly three thousand demons in the mythologies and lore of virtually every ancient society and most religions From Aamon the demon of life and reproduction with the head of a serpent and the body of a wolf in Christian demonology to Zu the half man half bird personification of the southern wind and thunder clouds in Sumero Akkadian mythology entries offer descriptions of each demon s origins appearance and cultural significance Also included are descriptions of the demonic and diabolical members making up the hierarchy of Hell and the numerous species

of demons that according to various folklores mythologies and religions populate the earth and plague mankind Very thoroughly indexed      **Television, Religion, and Supernatural** Erika Engstrom, Joseph M. Valenzano III, 2014-02-19 Television Religion and Supernatural examines the text of the CW network television series Supernatural a program based in the horror genre that offers viewers myriad religious based antagonists through the portrayals of monsters which its two main characters hunt and destroy as well as storylines based on the Bible Even as the series producers claim a nonreligious perspective the authors contend that story arcs and outcomes of episodes actually forward a hegemonic portrayal of Christianity that portrays a good versus evil motif regarding the superiority of Catholicism The depiction of its protagonist brothers Dean and Sam Winchester of Lawrence Kansas provides a pro American perspective regarding a more generalized fight against evil in contemporary times      Magic and the Supernatural in Fourth Century Syria Silke Trzcionka, 2006-11-22 Magic and the Supernatural in Fourth Century Syria presents an in depth investigation of a variety of magical practices with a focused study in the late antique Syria and Palestine Offering new research using both archaeological and literary sources and blending Classical Jewish and Christian traditions from both regions Silke Trzcionka examines a myriad of magical activities such as curses spells and amulets accusations related to chariot races love and livelihood methods involved in protection healing possession and exorcism The information is provided with clarity and theoretical sophistication which enables students to develop an understanding of these beliefs and their place within the social context of the time Altogether a useful enlightening and enjoyable book which students studying religion and or social history will find invaluable

Dyrness, Jean C. Blasdale, Greg Bahnsen, 2019-03-22 Witchcraft occultism paranormal science and mysticism are growing like  
plagues in the Western world These phenomena have baffled modern educators and conventional rationalists since such  
activities seem to be completely opposed to everything that the public schools have taught for over a hundred years Worst of  
all in the minds of conventional secularists all this discussion of demonic forces may lead to an even more appalling  
conclusion the idea that God also a supernatural force may reappear in the modern post Christian world At all costs a God  
who can make himself felt in time and on earth must be avoided Mysticism is one thing totally internalized but supernatural  
forces are not supposed to have any impact on external so called phenomenal affairs Occultism is another form of humanism  
It is the product of the quest for power apart from God and His law order It was not a major force in the so called Dark Ages  
Not until the fifteenth century did witchcraft become a serious problem in Europe and it was the Renaissance not  
medievalism which sparked the great explosion of demonism and magic in the sixteenth century During the period of the  
early Middle Ages A D 500 1000 there were practically no signs of witchcraft in Europe Only with the revival of ancient  
Gnosticism and the invasion of Middle Eastern dualism did signs of widespread witchcraft reappear Occultism and humanism  
are not sworn enemies they are first cousins It was only the influence of Christian principles which laid such stress on the  
orderliness of God's universe that made possible the confidence of modern rationalists in denying the influence of  
supernatural forces As the confidence in creation law has waned in this century rational humanism has become increasingly  
unsuccessful in retarding the expansion of occult humanism This Journal of Christian Reconstruction offers readers the  
necessary evidence for a refutation of the familiar charge that occultism and religion necessarily go together and that only a  
hard headed rationalism can restrain the forces of spiritual anarchy Far from retarding occultism modern rationalism's  
blindness to the reality of occult forces is now creating a perverse inquisitiveness on the part of modernism's children who  
have learned to be critical of everything including old fashioned rationalism The philosophy of the open universe closed to  
God has produced the new occult experimentalism If anything except Christian orthodoxy might be true why not find out  
through personal observation and experiment Since 1965 the Western world has faced the greatest explosion of occultism  
that it has seen in three hundred years This time no one can blame orthodox Christianity it has been the secularists who have  
wielded the power Civilizations of the Supernatural Fabrizio Conti, 2020-12-31 Civilizations of the Supernatural  
Witchcraft Ritual and Religious Experience in Late Antique Medieval and Renaissance Traditions brings together thirteen  
scholars of late antique medieval and renaissance traditions who discuss magic religious experience ritual and witch beliefs  
with the aim of reflecting on the relationship between man and the supernatural The content of the volume is intriguingly

diverse and includes late antique traditions covering erotic love magic Hellenistic Egyptian astrology apotropaic rituals early Christian amulets and astrological amulets medieval traditions focusing on the relationships between magic and disbelief pagan magic and Christian culture as well as witchcraft and magic in Britain Scandinavian sympathetic graphomancy superstition in sermon literature and finally Renaissance traditions revolving around Agrippan magic witchcraft in Shakespeare's Macbeth and a Biblical toponym related to the Friulan Benandanti's visionary experiences These varied topics reflect the multifaceted ways through which men aimed to establish relationships with the supernatural in diverse cultural traditions and for different purposes between Late Antiquity and the Renaissance These ways eventually contributed to shaping the civilizations of the supernatural or those peculiar patterns which helped men look at themselves through the mirror of their own amazement of being in this world

Capitalism Magic Thailand Peter A Jackson, 2021-12-13 By studying intersections among new cults of wealth ritually empowered amulets and professional spirit mediumship which have emerged together in Thailand's dynamic religious field in recent decades Capitalism Magic Thailand explores the conditions under which global modernity produces new varieties of enchantment Bruno Latour's account of modernity as a condition fractured between rationalizing ideology and hybridizing practice is expanded to explain the apparent paradox of new forms of magical ritual emerging alongside religious fundamentalism across a wide range of Asian societies In Thailand novel and increasingly popular varieties of ritual now form a symbolic complex in which originally distinct cults centred on Indian deities Chinese gods and Thai religious and royal figures have merged in commercial spaces and media sites to sacralize the market and wealth production Emerging within popular culture this complex of cults of wealth amulets and spirit mediumship is supported by all levels of Thai society including those at the acme of economic and political power New theoretical frameworks are presented in analyses that challenge the view that magic is a residue of premodernity placing the dramatic transformations of cultic ritual centre stage in modern Thai history It is concluded that modern enchantment arises at the confluence of three processes neoliberal capitalism's production of occult economies the auraticizing effects of technologies of mass mediatization and the performative force of ritual in religious fields where practice takes precedence over doctrine
