Magic and Religion George Benjamin Vetter,1958      *Magic and Religion* George B. Vetter,2022-12-06 This essential text on the psychology of religion studies the fundamental origins of human spirituality In Magic and Religion psychologist George B Vetter approaches magico religious behavior as a universal human phenomenon He examines the various wide ranging theories regarding the psychology of religion before calling for a more scientifically rigorous approach to the subject Putting forth his own provocative and enlightening thesis Vetter argues that magic and religion are predictable behavior patterns developed in situations that are uncontrollable yet of momentous importance to the individual or collective First published in 1958 Magic and Religion was a significant contribution to the psychology and sociology of religion Hailed by some as an essential text on the subject it was denounced by others as heresy in part because of its frank criticism of clerical celibacy and its early advocacy for abortion rights      *Greek and Interbehavioral Psychology* Noel W. Smith,1993 In this book the author uses a selection of twenty six of his papers in which he sets forth both interbehavioral psychology and Hellenic Greek psychology together with psychological concepts of hunter gatherers Egyptians and Indo Europeans Contents I Introduction II Pre Greek Greek and Indian Psychology III Interbehavioral Psychology General Framework Special Topics Studies Concerning the Founder of Interbehavioral Psychology Tribute Selected Bibliography      **A Cognitive Theory of Magic** Jesper Sørensen,2006-12-01 Magic is a universal phenomenon Everywhere we look people perform ritual actions in which desirable qualities are transferred by means of physical contact and objects or persons are manipulated by things of their likeness In this book Sørensen embraces a cognitive perspective in order to investigate this long established but controversial topic Following a critique of the traditional approaches to magic and basing his claims on classical ethnographic cases the author explains magic's universality by examining a number of recurrent cognitive processes underlying its different manifestations He focuses on how power is infused into the ritual practice how representations of contagion and similarity can be used to connect otherwise distinct objects in order to manipulate one by the other and how the performance of ritual prompts representations of magical actions as effective Bringing these features together the author proposes a cognitive theory of how people can represent magical rituals as purposeful actions and how ritual actions are integrated into more complex representations of events This explanation in turn yields new insights into the constitutive role of magic in the formation of institutionalised religious ritual      **The Signifier Pointing at the Moon** Raul Moncayo,2012 Within the context of a careful review of the psychology of religion and prior non Lacanian literature on the subject Raul Moncayo builds a bridge between Lacanian psychoanalysis and Zen Buddhism that steers clear of Reducing one to the other or creating a simplistic synthesis between the two Instead by making a purposeful one mistake of unknown knowing this book remains consistent with the analytic unconscious and continues in the splendid tradition of Bodhidharma who did not know Who he was and told Emperor Wu that there was no merit in building temples for Buddhism      **Cult and Ritual**

**Abuse** James Randall Noblitt, Pamela Perskin Noblitt, 2014-07-15 This personal yet scholarly journey into the confusing and clandestine world of ritual abuse survivors sheds light on their catastrophic experiences and their efforts to heal afterward. Revised, updated, and expanded, this third edition of a classic study is one of the most authoritative and evenhanded volumes to tackle its hotly debated subject matter. Incorporating the authors' firsthand observations, the book provides historical, anthropological, and psychological context for contemporary reports of both ritual abuse and ritual crime. In addition to sharing patient vignettes and a history of cult and ritual abuse in society, the authors explore fascinating topics related to these practices among them: what triggers personality shifts for victims even many years after the abuse has stopped. Importantly, the book shows how ritual abuse affects society as a whole, influencing civil and criminal law, politics, legislation, social movements, social welfare, and psychological theory. It provides unique insights into the scientific study, forensic investigation, and implementation of social services for survivors of cult and ritual abuse, discusses new research, and treatment strategies, and establishes the foundation for a psychological diagnosis to be called Cult and Ritual Trauma Disorder.

**American Journal of Islam and Society (AJIS) - 40th Anniversary Special Issue - Volume 41 Issues 1** Asyraf Wajdi Dusuki, Nurdianawati Irwani Abdullah, Akhmad Akbar Susanto, Emad Hamdeh, Glenn E. Perry, Jasmin Zine, Fadel Abdallah, Sherman A. Jackson, Amber Haque, Rosnani Hashim, For forty years AJIS has been a trusted platform for researchers, scholars, and practitioners serving as a conduit for the exchange of ideas, the dissemination of cutting edge research, and the cultivation of intellectual dialogue. Many of us found this journal a space for ruminating, discussing, and developing our own narratives on our Islamic heritage and what it means in the contemporary world. Especially compared to anti-Islamic biases in other corners of academia, AJIS is a coming home. One constant throughout the past four decades is the journal's commitment to scholarship that documents and explores Islam's rich religious, intellectual, legal, philosophical, and social heritages. The assumption is that these various perspectives have meaningful things to say about the human condition and our place in the world. Debate, discussion, and disagreement all appear in these pages but always grounded in an underlying steadfastness that Islam is a faith tradition that is not obsolete; that Muslims can contribute positively to humanity's betterment. That said, the journal is not a place of religious homilies. This is an academic journal with a double-blind peer review process. Articles that are published thus pass muster in the discipline in which they conduct their research. Let us thank the authors who have entrusted us with their groundbreaking research, pushing the boundaries of knowledge and enriching our understanding of critical issues in our disciplines. Let us thank the journal's editors, editorial boards, diligent reviewers, and committed staff members who have meticulously upheld the journal's reputation for excellence, contributing to its sustained success.
