inspired and stimulating read aimed at researchers academics professionals and students in the fields of early years education and research and early childhood literacy It will also be of interest to those working in other disciplines such as cultural studies and sociology I think this collection of work by the range of authors some of which are the most distinguished and renowned in the field not only represents real value for money but also makes an essential in depth perceptive and invaluable contribution to this relatively new and dynamic field It offers some cutting edge contemporary and exciting material combined with well founded wisdom and indeed excellent sources for further reading British Journal of Educational Studies In recent years there has been a virtual revolution in early childhood studies with a mass of books and papers seeking to re examine and reposition childhood At the same time an equally significant area has developed within literacy studies reflecting a growing interest in the nature of literacy as a socially situated phenomenon There is increased interest in literacy as a multimodal concept in which symbolic meaning is a central concept rather than more conventional and narrower notions of literacy The Handbook of Early Childhood Literacy is central in providing access to all these different perspectives The Handbook offers a way through the vast diversity of publications on early childhood literacy by providing comprehensive and up to date reviews of research and thinking in early childhood literacy The arrangement of chapters reflects a contemporary perspective on research into early childhood literacy Major sections include the global world of early childhood literacy childhood literacy and family community and culture the development of literacy in early childhood pedagogy and early childhood literacy and researching early childhood literacy Contributions by leading authorities focus on literacy as a socially situated and global experience one that is evolving in relation to changes in contemporary culture and technological innovation

La otra lectura Istvan Schritter,2005 La otra lectura llena un espacio escasamente abordado en nuestro pais Esa Botra lecturaB en los libros para ninos y jovenes habla de la imagen de la imagen y el texto y de ambas como un todo El lugar del ilustrador de libros para chicos como dice el propio Istvan fue y sigue siendo en algunos casos subvalorado cuando no

excluido Su ojo lleva al lector a Baprender a mirarB desde los paratextos de un libro hasta las tecnicas utilizadas en las ilustraciones pasando por un profundo analisis de distintas imagenes de autores e ilustradores argentinos y universales con total objetividad Se detiene especialmente en la palabra BautorB ya que considera que crear ilustraciones es una BautoriaB como la del escritor Se regocija en la investigacion de las imagenes incluidas en el libro dando lugar al lector al aprendizaje de esa otra lectura a veces simple y a veces miniaturista la importancia de la tipografia por ejemplo deja entrever que un libro es un todo donde no escapa siquiera el tamano y la forma de las letras Incursiona en el tratamiento que la escuela deberia accionar para BleerB un libro ilustrado teniendo en cuenta la desinformacion de los adultos sobre la ilustracion en los libros para ninos En particular se dirige a los docentes de grado al docente de plastica y al de lengua y literatura Y como si esto fuera poco el libro contiene un pliego color para que el lector recorte BfiguritasB y las pegue dentro del libro tal como se menciona en la introduccion
