Neptune and the Final Phase of the Piscean Age Sioux Rose, 2004-10-13 This volume functions as two books in one An astrologer's reference it delineates Neptune's conjunctions with planets from the birth chart Additionally since the astrologer is trained to step outside the temporal context to understand the magnitude of stories inlaid into the rhythm structures of time its perspective is valuable as mankind faces a chaotic transition The ancient Greeks personified the planetary personae through myth Neptune the deceiver presides over the final phase of the Piscean Age as deception delusion and duplicity threaten the great verities How did we get here Mankind evidences remarkable technological expertise but have matters improved for the vast majority Illusions born of past traditions hold minds hostage and pit tribe against tribe on the basis of divisive belief systems Pisces is the zodiac position where the circle meets itself and differences dissolve Symbolized by two fish it suggests twin perceptual portals analogous to both brain hemispheres Two complementary oars are required to navigate our shared vessel progressively otherwise we circle endlessly and history repeats Right brain sentience invokes what is missing the sense of inherent unity among all living beings Mankind can no longer afford the asymmetric worldview that undermines the great balance we must now endeavor to restore

The Final Empire Wm. H. Kötke,2007-11 In spite of its tough message there is much compassion and humanity in The Final Empire Right away as you begin to read this work you sense increasingly the grand perspective in K tke s words He is not speaking of anarchy He is offering vital common sense It s just that his meaning is so unavoidably political And so much against what we have been taught all our lives The materialistic values of civilization teach us that the accumulation of wealth is progress The material wealth of the civilization is derived from the death of the earth the soils the forests the fish stocks the free resources of flora and fauna The ultimate end of this is for all human species to live in giant parasitical cities of cement and metal while surrounded by deserts of exhausted soils The simple polar opposites are the richness and wealth of the natural life of earth versus the material wealth of people living out their lives in artificial environments This amounts to a direct challenge to humankind A demand for radical change A re envisioning of our part in the community of life and the precepts of individuality And Mr K tke provides a strong argument for this case He traces the environmental scars of civilization through the ages Empire after empire desertification of the top soil winds its way around the globe in an erosive helix from China to India to Mesopotamia to Italy to North America As radical as it may seem at first glance The Final Empire is a necessary and sensible primer for the recovery of the planet It blends a critical statistical analysis of our deteriorating environment with a positivism of hope for a post empire age and a new whole human relation to the living community of Earth Dan Armstrong Author of the Novels Prairie Fire and Taming the Dragon *Care to Dare* George Kohlrieser,Susan Goldsworthy,Duncan Coombe,2012-05-29 Have you ever been led by someone who cared for you like family and dared you to achieve more than you ever thought possible for yourself your organization and even society Award winning author of Hostage at the Table George Kohlrieser along with his co authors Susan Goldsworthy and Duncan Coombe explain how becoming a secure base leader releases extraordinary potential in others Part of the Warren Bennis leadership series Care to Dare shows you how to become a Secure Base Leader so that you release your followers from the fears that get in the way of their performance It shows you how you can unleash astonishing potential by building the trust delivering the change and inspiring the focus that underpins sustainable high performance From extensive interviews with executives from all over the world as well as from surveys with more than a thousand executives the book reveals the nine

characteristics that Secure Base Leaders display on a daily basis The research shows that a primary difference between a successful leader and a failed leader is the presence or absence of secure bases in his or her life Care to Dare will take you on a journey where you will discover your own secure bases past and present and determine how you can be a secure base for other people in your life at work and at home [Making Meaning](#) Richard L.
