Film Policy Albert Moran, 1996 *Film Policy* is the first comprehensive overview of the workings of the international film industry. The authors examine film cultures and film policy across the world, explaining why Hollywood cinema dominates the global film market and the effects of the rise of television and video on the international industry. In a series of case studies drawn from North America, Europe, Latin America, Asia and Australia, the authors explore the relationship between Hollywood cinema, product and national film cultures and trace the development of international and national film policies, looking at issues of financing, regulation, protectionism and censorship.

The Rise of Spanish-Language Filmmaking Lisa Jarvinen, 2012-06-05 Silent film was universally understood and could be exported anywhere. But when talkies arrived, the industry began experimenting with dubbing, subtitling and dual track productions in more than one language. Where language fractured the European film market for Spanish speaking countries and communities, it created new opportunities. In *The Rise of Spanish Language Filmmaking*, Lisa Jarvinen focuses specifically on how Hollywood lost ground in the lucrative international Spanish speaking audience between 1929 and 1939. Hollywood studios initially trained cadres of Spanish speaking film professionals, created networks among them and demonstrated the viability of a broadly conceived transnational Spanish speaking film market in an attempt to forestall the competition from other national film industries. By the late 1930s, these efforts led to unintended consequences and helped to foster the growth of remarkably robust film industries in Mexico, Spain and Argentina. Using studio records, Jarvinen examines the lasting effects of the transition to sound on both Hollywood practices and cultural politics in the Spanish speaking world. She shows through case studies based on archival research in the United States, Spain and Mexico, how language as a key marker of cultural identity led to new expectations from audiences and new possibilities for film producers.
