Envisioning Magic Peter Schäfer,Hans Kippenberg,2018-09-24 This collection of twelve articles presents a selection of papers delivered in the course of a seminar 1994 95 and its concluding international symposium at the Institute for Advanced Study in Princeton The common theme is the interrelation between magic and religion focussing particularly on the Mediterranean world in Antiquity Egyptian Graeco Roman and Jewish beliefs and customs but also treating the early modern period in Northern Europe the Netherlands and Germany as well as offering more general reflections on elements of magic in language and Jewish mysticism The volume is characterized by an interdisciplinary approach and the use of varied methodologies emphasizing the dynamic nature of the often contradictory forces shaping religious beliefs and practices while dismissing the idea of a linear development from magic to religion or vice versa The contributors are outstanding scholars in their fields Ancient Medieval and Modern History Religious Studies Jewish Studies Classical Studies Early Christianity Islamic Studies Anthropology Egyptology and Comparative Literature Without a doubt this re evaluation of a fascinating age old subject will stimulate scholarly discussion and appeal to educated non specialist readers as well **Egyptian Magic** Maarten J. Raven,2012 The ancient Egyptians were firmly convinced of the importance of magic which was both a source of supernatural wisdom and a means of affecting one s own fate The gods themselves used it for creating the world granting mankind magical powers as an aid to the struggle for existence Magic formed a link between human beings gods and the dead Magicians were the indispensable guardians of the god given cosmic order learned scholars who were always searching for the Magic Book of Thoth which could explain the wonders of nature Egyptian Magic illustrated with wonderful and mysterious objects from European and Egyptian museum collections describes how Egyptian sorcerers used their craft to protect the weakest members of society to support the gods in their fight against evil and to imbue the dead with immortality and explores the arcane systems and traditions of the occult that governed this well organized universe of ancient Egypt

**Jesus and Magic** Richard A Horsley, 2015-04-30 It has become standard in modern interpretation to say that Jesus performed miracles and even mainline scholarly interpreters classify Jesus's healings and exorcisms as miracles. Some highly regarded scholars have argued more provocatively that the healings and exorcisms were magic and that Jesus was a magician. As Richard Horsley points out, if we make a critical comparison between modern interpretation of Jesus's healing and exorcism on the one hand and the Gospel stories and other ancient texts on the other hand, it becomes clear that the miracle and magic are modern concepts, products of Enlightenment thinking. Jesus and Magic asserts that Gospel stories do not have the concepts of miracle and magic. What scholars constructed as magic turns out to have been ritual practices such as songs, incantations, medicines, potions, and appeals to higher powers for protection. Horsley offers a critical reading of the healing and exorcism episodes in the Gospel stories. This reading reveals a dynamic relationship between Jesus, the healer, the trust of those coming for healing, and their support networks in local communities. Horsley's reading of the Gospel stories gives little or no indication of divine intervention. Rather, the healing and exorcism stories portray healings and exorcisms.

*Patients and Performative Identities* J. Cale Johnson, 2020-07-30 The missing piece in so many histories of Mesopotamian technical disciplines is the client who often goes unnoticed by present-day scholars seeking to reconstruct ancient disciplines in the Near East over millennia. The contributions to this volume investigate how Mesopotamian medical specialists interacted with their patients and in doing so forged their social and professional identities. The chapters in this book explore rituals for success at court, the social classes who made use of such rituals, and depictions of technical specialists on seal impressions and in later Greco-Roman iconography. Several essays focus on Egalkura, rituals of entering the court meant to invoke a favorable impression from the sovereign. These include detailed surveys and comparative studies of the genre and its roots in the emergent astrological paradigm of the late first millennium BC. The different media and modalities of interaction between technical specialists and their clients are also a central theme explored in detailed studies of the sickbed scene in the iconography of Mesopotamian cylinder seals and the transmission of specialized pharmaceutical knowledge from the Mesopotamian to the Greco-Roman world. Offering an encyclopedic survey of ritual clients attested in the cuneiform textual record, this volume outlines both the Mesopotamian and the Greco-Roman social contexts in which these rituals were used. It will be of interest to students of the history of medicine as well as to students and scholars of ancient Mesopotamia. In addition to the editor, the contributors include Netanel Anor, Siam Bhayro Strahl, V. Panayotov, Maddalena Rumor, Marvin Schreiber, JoAnn Scurlock, and Ulrike Steinert.

**Magic in Ancient Greece and Rome** Lindsay C. Watson, 2019-05-02 Parting company with the trend in recent scholarship to treat the subject in abstract, highly theoretical terms, *Magic in Ancient Greece and Rome* proposes that the magic working of antiquity was in reality a highly pragmatic business with very clearly formulated aims, often of an exceedingly malignant kind. In seven chapters, each addressed to an important arm of Greco-Roman magic, the volume discusses the history of the rediscovery and publication of the so-called Greek Magical Papyri, a key
