

A study was started on the possible "low consumption" alternative design for the big dipoles of the PCL.

Key aspects:

- To provide a "low consumption" design solution
- RELIABILITY is a key word for these magnets: they will be placed in a dumping tunnel, area very radioactive and interventions must be MINIMIZED.
- The magnets could be subjected to high doses of radiation (new simulation on-going)
- Assumptions are the following:
 - The most simple (and economic) cryogenic solution seems to take advantage of the cryo coolants available at the IP (Detector Solenoid). They will be at 4.5 K (LHe to the solenoid) or at 40-60 K (thermal shields). Distance from the PCL magnets: 35-100m (depending by the PCL versions considered).
 - In these condition the cost of the cryogenic system will consist in the cryogenic transfer line and the valve box for the distribution to the magnets. Other solution are also considered.
 - For the magnet COILS, several possibility are evaluated:
 - "Classic SC" solution (i.e. NbTi)
 - HTS (High Temperature Superconductor) (i.e. MgB₂, YBCO, etc.)

Each solution has advantages and disadvantages, trying to identify them to provide some first evaluations..

"Active" coil cross-section comparison for some different solutions.

Other aspect to be considered:

- Complexity/cost of the coil winding
- Complexity/cost of cryostats
- Operation
- Stability and radiation resistance

Magnet School Policy Studies and Evaluations Donald R. Waldrip, Walter L. Marks, Nolan Estes, 1993 Handbook of Research on School Choice Mark Berends, Ann Primus, Matthew G. Springer, 2019-06-20 Updated to reflect the latest developments and increasing scope of school based options the second edition of the Handbook of Research on School Choice makes readily available the most rigorous and policy relevant research on K 12 school choice This comprehensive research handbook begins with scholarly overviews that explore historical political economic legal methodological and international perspectives on school choice In the following sections experts examine the research and current state of common forms of school choice charter schools school vouchers and magnet schools The concluding section brings together perspectives on other key topics such as accountability tax credit scholarships parent decision making and marginalized students With empirical perspectives on all aspects of this evolving sphere of education this is a critical resource for researchers faculty and students interested in education policy the politics of education and educational leadership The Wiley Handbook of School Choice Robert A. Fox, Nina K. Buchanan, 2017-03-14 The Wiley Handbook of School Choice presents a comprehensive collection of original essays addressing the wide range of alternatives to traditional public schools available in contemporary US society A comprehensive collection of the latest research findings on school choices in the US including charter schools magnet schools school vouchers home schooling private schools and virtual schools Viewpoints of both advocates and opponents of each school choice provide balanced examinations and opinions Perspectives drawn from both established researchers and practicing professionals in the U S and abroad and from across the educational spectrum gives a holistic outlook Includes thorough coverage of the history of traditional education in the US its current state and predictions for the future of each alternative school choice *Student Guidance & Development* Dode Worsham, 2013-10-31 This book provides information about best practices in guidance and counseling It provides examples of innovative programs which meet students personal needs such as school wide discipline programs peer mediation student activities etc *H.R. 4271, the National Science Education Act; H.R. 4272, the National Science Education Enhancement Act; and H.R. 4273, the National Science Education Incentive Act* United States. Congress. House. Committee on Science, 2001 **American Educational History Journal** Donna M. Davis, 2015-09-01 The American Educational History Journal is a peer reviewed national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines The editors of AEHJ encourage communication between scholars from numerous disciplines nationalities institutions and backgrounds Authors come from a variety of disciplines including political science curriculum history philosophy teacher education and educational leadership Acceptance for publication in AEHJ requires that each author present a well articulated argument that deals substantively with questions of educational history **School Matters** RoSusan D. Bartee, M. Christopher Brown, 2007 There are four types of capital economic human cultural and social The distribution of capital in home and

school settings affects the types of educational outcomes and the quality of lifelong opportunities that individuals are able to enjoy Resource availability and accessibility influence the success levels at which teaching and learning is experienced Capital possession or acquisition impacts the ability to navigate the academic pipeline and to recognize the appropriate tools by which to do so Minimal attempts have been taken to address different perspectives related to economic human cultural and social capital This book identifies the various tenets of capital as having shared similarities and or differences as well as reveals how the distribution of capital impacts educational settings More specifically this book reveals that given the increases in the parental education or the cultural capital of African Americans no significant changes have occurred in the number of years that African American children attend schools This finding remains consistent in terms of the sort of cultural capital that they are able to gain In sum the research concludes that cultural capital does assume a significant role in the transfer of advantages that stem from middle and upper level socioeconomic backgrounds **Resources in Education**

Conference -- 23-24 February 1999** OECD,1999-09-02 This publication points the way to future initiatives to improve youth labour market and educational outcomes as identified by policy makers and experts of OECD countries brought together at the Washington Conference Preparing Youth for the 21st Century *Learning from the Federal Market?Based Reforms* William J.

Mathis,Tina M. Trujillo,2016-06-01 Over the past twenty years educational policy has been characterized by top down market focused policies combined with a push toward privatization and school choice The new Every Student Succeeds Act continues along this path though with decision making authority now shifted toward the states These market based reforms have often been touted as the most promising response to the challenges of poverty and educational disenfranchisement But has this approach been successful Has learning improved Have historically low scoring schools turned around or have the reforms

had little effect Have these narrow conceptions of schooling harmed the civic and social purposes of education in a democracy This book presents the evidence Drawing on the work of the nation s most prominent researchers the book explores the major elements of these reforms as well as the social political and educational contexts in which they take place It examines the evidence supporting the most common school improvement strategies school choice reconstitutions or massive personnel changes and school closures From there it presents the research findings cutting across these strategies by addressing the evidence on test score trends teacher evaluation miracle schools the Common Core State Standards school choice the newly emerging school improvement industry and re segregation among others The weight of the evidence indisputably shows little success and no promise for these reforms Thus the authors counsel strongly against continuing these failed policies The book concludes with a review of more promising avenues for educational reform including the necessity of broader societal investments for combatting poverty and adverse social conditions While schools cannot single handedly overcome societal inequalities important work can take place within the public school system with evidence based interventions such as early childhood education detracking adequate funding and full service community schools all intended to renew our nation s commitment to democracy and equal educational opportunity *Hope at Last for At-risk Youth* Robert D. Barr, William Parrett, 1995 Provides a review of new information regarding at risk youth including a synthesis of current research evaluation of effective school programs and practices description of promising practices still being evaluated and a collection of the author s personal anecdotes and experiences with teachers

The Impact of Academic Selection on Educational Effectiveness and Equity Binwei Lu, Xin Shao, Fengju Chen, 2025-11-13 Academic selection is the process of selecting students based on academic ability and then providing divergent educational routes depending on the results of the selection Drawing on international evidence this book provides detailed discussions on the influence of early age academic selection on educational effectiveness and equity Demonstrating its widespread implementation across England Northern Ireland Germany the United States and China the book provides a comprehensive evaluation of academic selection considering policy implications practical applications and societal controversies Through a systematic analysis of empirical studies the book critically evaluates the potential impacts of academic selection on educational effectiveness and equity exploring whether expanding or replacing it with a non selective system would lead to more effective and equitable outcomes With significant implications for improving educational effectiveness and equity this book will be invaluable to students and researchers of education policy and sociology of education as well as to policymakers in countries with existing academic selection systems or considering their implementation *Hope Fulfilled for At-risk and Violent Youth* Robert D. Barr, William Parrett, 2001 Offers a wealth of detailed information on successful strategies for reaching and teaching all children Brings together nationwide research on effective schools and programs and explains why these programs have worked and gives step by step instructions for creating successful programs Separate sections focus on the unique challenges facing

elementary middle and high school programs The authors are affiliated with Boise State University Annotation copyrighted by Book News Inc Portland OR Handbook of Education Policy Research Lora Cohen-Vogel, Peter Youngs, Janelle Scott, 2025-08-15 The second edition of the Handbook of Education Policy Research the largest volume published in AERA's history addresses a variety of policy and contextual issues in early childhood K 12 and postsecondary education that have received extensive empirical attention during the past 15 years With the pandemic and social turmoil as a backdrop the editors build on the breadth and depth of the first edition while expanding the scope of the project to include subjects methods theories and analyses that have contributed powerfully to the study of education policy and politics in the 2010s and 2020s The field has become more comprehensive and inclusive and the authors represent a diversity of racial ethnic and gender identities and intellectual and disciplinary orientations Most chapters come from multiple authors reflecting the multi sourced development of research in education policy since the first volume was published This compilation consists of 70 chapters and nine commentaries that map past present and future directions of the field and richly attend to critical issues of interest to students researchers policy makers and practitioners **JSL Vol 25-N5 JOURNAL OF SCHOOL LEADERSHIP**, 2015-10-08 The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts We welcome manuscripts based on cutting edge research from a wide variety of theoretical perspectives and methodological orientations The editorial team is particularly interested in working with international authors authors from traditionally marginalized populations and in work that is relevant to practitioners around the world Growing numbers of educators and professors look to the six bimonthly issues to deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement **Teaching Speaking, Listening and Writing** Trudy Wallace, Winifred Stariha E., Herbert J. Walberg, International Academy of Education, 2004 *Exploring the School Choice Universe* Kevin G. Welner, Patricia H. Hinchey, William J. Mathis, Gary Miron, 2013-02-01 Exploring the School Choice Universe Evidence and Recommendations gives readers a comprehensive complete picture of choice policies and issues In doing so it offers cross cutting insights that are obscured when one looks only at single issue or a single approach to choice The book examines choice in its various forms charter schools home schooling online schooling voucher plans that allow students to use taxpayer funds to attend private schools tuition tax credit plans that provide a public subsidy for private school tuition and magnet schools and other forms of public school intra and interdistrict choice It brings together some of the top researchers in the field presenting a comprehensive overview of the best current knowledge of these important policies The questions addressed in Exploring the School Choice Universe are of most importance to researchers and policy makers What do choice programs actually do What forms do they take Who participates and why What are the funding implications What are the results of different forms of school choice on outcomes that matter like student performance

segregation and competition effects Do they affect teachers working conditions Do they drive innovation The contents of this book offer reason to believe that choice policies can further some educational goals But they also suggest many reasons for caution If choice policies are to be evidence based a re examination is in order The information insights and recommendations facilitate a more nuanced understanding of school choice and provide the basis for designing sensible school choice reforms that can pursue a range of desirable outcomes
