Ennodius S. A. H. Kennell,2000 The first comprehensive study of Magnus Felix Ennodius as both Latin literary figure and historical personality *Olaus Magnus, A Description of the Northern Peoples, 1555* P.G. Foote,2017-09-29 The Swedish scholar and prelate Olaus Magnus 1490 1557 last Catholic archbishop of Uppsala lived the latter half of his life in exile His devotion to his country and his people never faltered nor his determination to give them a glorious place on the European cultural map by his writings On his justly famous Carta Marina published in Venice in 1539 he promised a fuller account of the North and its marvels This he accomplished in January 1555 when he issued from his own press in Rome his magnificent Historia de gentibus septentrionalibus This quarto volume of 815 pages divided into 22 books and a total of 778 chapters was lavishly illustrated with some 480 woodcuts most of them closely relevant to the technical matters discussed by the author The book was an immediate success and half a dozen editions appeared in the century after Olaus s death It became even better known in an epitome published in Antwerp in 1558 which was also frequently reprinted and translated This appeared in English in 1658 but it is only with the present version complete with illustrations that the whole work is made available to

the English reading world It is indeed only the second full translation to appear in modern times preceded a Swedish version published in four parts between 1909 and 1925 There is little history in the sense of chronological narrative in Olaus Magnus's *Historia* It is rightly regarded as an ethnographic essay on an encyclopaedic scale touching on a vast variety of topics snowflakes and sea serpents elks and artillery sables and saltpetre watermills and werewolves Much of it was culled from ancient authorities it was a matter of patriotic pride to identify the Swedes as the only legitimate descendants of the Goths but much of it was derived from the author's personal observations especially those made on his early travels in North Sweden His pioneering and sympathetic account of the Lapps and their way of life has attracted p Magnus Hirschfeld Ralf Dose, 2014-04-11 Magnus Hirschfeld 1868-1935 was one of the first great pioneers of the gay liberation movement Revered by such gay icons as Christopher Isherwood and Harry Hay founder of the Mattachine Society Hirschfeld's legacy resonates throughout the twentieth century and around the world Guided by his motto Through Science Toward Justice Hirschfeld helped found the Scientific Humanitarian Committee in Germany to defend the rights of homosexuals and develop a scientific framework for sexual equality He was also an early champion of women's rights campaigning in the early 1900s for the decriminalization of abortion and the right of female teachers and civil servants to marry and have children By 1933 Hirschfeld's commitment to sexual liberation made him a target for the Nazis and they ransacked his Institute for Sexual Research and publicly burned his books This biography first published to acclaim in Germany follows Hirschfeld from his birth in the Prussian province of Pomerania to the heights of his career during the Weimar Republic and the rise of German fascism Ralf Dose illuminates Hirschfeld's ground breaking role in the gay liberation movement and explains some of his major theoretical concepts which continue to influence our understanding of human sexuality and social justice today

Magnús Eiríksson Gerhard Schreiber, Jon Stewart, 2017-03-06 The present volume is the first anthology devoted to the Icelandic theologian and religious author Magnús Eiríksson 1806-81 a forgotten contemporary of Søren Kierkegaard in Golden Age Denmark With his remarkably modern views thoughts and ideas of society politics and religion Eiríksson has taken on the role of a widely unknown pioneer in various contexts As early as in his debut book *On Baptists and Infant Baptism* 1844 Eiríksson made a name for himself as a devoted advocate of tolerance and freedom of thought and conscience in matters of religion Although Eiríksson's numerous and multifaceted writings provoked a wide spectrum of reactions by members of the Danish society the central figures at that time constantly took care to avoid engaging Eiríksson or his ideas in public debate and instead met him with lofty silence The present volume aims to end this silence which has continued after Eiríksson's death and it marks the beginning of a serious discussion of Eiríksson's works and ideas The articles featured in this anthology are written by international scholars from different fields With its strategic organization the collection covers the key topics of Eiríksson's writings and provides insights into his historical cultural background Understanding Eiríksson's polemics with his Copenhagen contemporaries such as Hans Lassen Martensen Henrik Nicolai Clausen N F S Grundtvig and
