Jewell, 2023-11-07 In the financial chaos of the last few decades increasing wealth inequality has shaken people s expectations about middle class stability At the same time demographers have predicted the browning of the nation s middle class once considered a de facto white category over the next twenty years as the country becomes increasingly racially diverse In this book Joseph O Jewell takes us back to the turn of the twentieth century to show how evidence of middle class mobility among Black Mexican American and Chinese men generated both new anxieties and varieties of backlash among white populations Blending cultural history and historical sociology Jewell chronicles the continually evolving narratives that linked whiteness with middle class mobility and middle class manhood In doing so Jewell addresses a key issue in the historical sociology of race how racialized groups demarcate defend and alter social positions in overlapping hierarchies of race class and gender New racist narratives about non white men occupying middle class occupations emerged in cities across the nation at the turn of the century These stories helped to shore up white supremacy in the face of far reaching changes to the nation s racialized economic order
