has been paid to the indigenous Sierra Leonean roots of this community This anthology addresses this problem while celebrating the complexities of Krio identity and Krio interaction with other ethnic groups and nationalities in the British colonial experience Ibss Poli Sci 29 1980 "International Committee For Social Sciences Documentation",2013-10-15 The International Bibliography of the Social Sciences IBSS is an essential tool for librarians academics and researchers wishing to be kept up to date with the published literature in the social sciences IBSS is compiled in four divisions Anthropology Sociology Economics and Political Science This is Volume XXIX of the International bibliography of political science as of 1980 **An Ethnographic Approach to Peacebuilding** Gearoid Millar,2014-04-24 This book aims to outline and promote an ethnographic approach to evaluating international peacebuilding interventions in transitional states While the evaluation of peacebuilding and transitional justice efforts has been a growing concern in recent years too often evaluations assess projects based on locally irrelevant measures reinforce the status quo distribution of power in transitional situations and uncritically accept the implicit conceptions of the funders planners and administrators of such projects This book argues that evaluating the effects of peacebuilding interventions demands an understanding of the local and culturally variable context of intervention Throughout the book the author draws on real world examples from extensive fieldwork in Sierra Leone to argue that local experiences should be considered the primary measure of a peacebuilding project s success An ethnographic approach recognizes diversity in conceptions of peace justice development and reconciliation and takes local approaches and local critiques of the international agenda seriously It can help to empower local actors hold the international peacebuilding industry accountable to its supposed beneficiaries and challenge the Western centric ideas of what peace entails and how peacebuilding is achieved This book will be of much interest to students and scholars of peacebuilding peace and conflict studies transitional justice African politics ethnography International Relations and security studies as well as practitioners working in the field **Zones of Peace in the Third World** Arie Marcelo Kacowicz,1998-01-01 Provides a critique and an extension of the democratic peace theory by focusing on the regional level and by offering alternative explanations for the maintenance of democratic and non democratic zones of peace *Who Influenced Whom?* Dale C. Tatum,2002 Urging the rejection of the realist paradigm of international relations that rested upon assumptions of balance of power concepts the author examines eight case studies from the Cold War as a move towards setting international relations concepts with more utility in influencing other countries Superpower relations with Syria Turkey Ethiopia and Guinea are explored in terms of strategic relationship concepts Taiwan and Cuba were chosen as cases in which superpowers established a relationship to a small country in order to protect it from an ideological rival Finally the cases of Yugoslavia and Uganda were selected as being examples where a superpower established a relationship with a country in order to gain at the expense of the other superpower Annotation copyrighted by Book News Inc Portland OR *International Relations in Contemporary Africa* Michael O. Anda,2000 Although developing countries far outnumber fully industrialized states they are often neglected in the

study of international relations especially with respect to the development of foreign policy theory International Relations in Contemporary Africa attempts to fill this void in the literature on comparative international relations while at the same time providing a detailed analysis of the economic development and integration of West African countries Michael Anda specifically focuses on the members of the Economic Community of West African States ECOWAS and their policies which encourage coordination on issues ranging from science and technology to diplomacy and mutual defense Tracing the diplomatic history of West Africa from independence to the present he assesses the various dimensions of cooperation among the smaller and less developed states of West Africa while revealing the precarious nature of the economy and security in the region Both detailed and comprehensive International Relations in Contemporary Africa represents a significant contribution to African studies that appeal to those with an interest in the foreign policy of smaller states

Title to Territory in Africa Malcolm Nathan Shaw, 1986 The territorially based view of international law remains the fundamental model and is subscribed to by third world states This study analyzes the colonial acquisition of African territory with particular reference to the evolution of the principles of self determination and its impact upon the law relating to territory

The Novels of Peter Abrahams and the Rise of Nationalism in Africa Robert Ensor, 1992

Equality, the Third World, and Economic Delusion P. T. Bauer, Péter Tamás Bauer, 1981 Even in impoverished countries lacking material and human resources P T Bauer argues economic growth is possible under the right conditions These include a certain amount of thrift and enterprise among the people social mores and traditions which sustain them and a firm but limited government which permits market forces to work Challenging many views about development that are widely held Bauer takes on squarely the notion that egalitarianism is an appropriate goal He goes on to argue that the population explosion of less developed countries has on the whole been a voluntary phenomenon and that each new generation has lived better than its forebears He also critically examines the notion that the policies and practices of Western nations have been responsible for third world poverty In a major chapter he reviews the rationalizations for foreign aid and finds them weak while in another he shows that powerful political clienteles have developed in the Western nations supporting the foreign aid process and probably benefiting more from it than the alleged recipients Another chapter explores the link between the issue of Special Drawing Rights by the International Monetary Fund on the one hand and the aid process on the other Throughout the book Bauer carefully examines the evidence and the light it throws on the propositions of development Although the results of his analysis contradict the conventional wisdom of development economics anyone who is seriously concerned with the subject must take them into account
