demand capturing the spirit of nostalgia while preserving the engines and equipment of past days of rail travel Their interests even extend to the modern era of 1960 s 70 s diesels Those heritage railways themselves have a long pedigree back to 1951 when a group of enthusiasts saved the Talylyn Railway in mid Wales from closure They ran this railway as volunteers out of their love of the little trains and a desire to keep it going Their example was followed by many more preservation societies who preserved and restored branch lines country lines and industrial lines for our enjoyment now Six decades have passed and we are now beginning to realize what an impressive history the heritage railway movement has This book traces that history from the humble beginnings the hopes and ambitions of the pioneers on the different railway projects There were times of failure and frustration as some fell by the wayside but others have made it through times of adversity to become the major heritage businesses of today
