Making Of Late Antiquity:

The Making of Late Antiquity Peter Brown, 1978 This book explores the significant changes that took place in the classical world between the late second and early fourth centuries A new elitism in religion had its parallel in society as a whole and a wide polarization of the wealthy and the poor developed as unbridled ambition made the sharp distinction between the rulers and the ruled From publisher s description **The Making of Late Antiquity** Peter Robert Lamont Brown, 1993 **Jewish Biblical Interpretation and Cultural Exchange** Natalie B. Dohrmann, David Stern, 2013-06-18 Biblical interpretation is not simply study of the Bible s meaning This volume focuses on signal moments in the histories of scriptural interpretation of Judaism Christianity and Islam from the ancient period to the early modern and shows how deeply intertwined these religions have always been **Sacred Disobedience** Sharon L. Coggan, 2020-07-07 Sacred Disobedience A Jungian Analysis of the Saga of Pan and the Devil traces the ancient Greek God Pan who became distorted into the image of the Devil in early Christianity When Pan was demonized the powerful qualities he represented became repressed as Pan s visage twisted into the model of the Devil This book follows a Jungian analysis of this development In ancient Greek religion Pan was worshipped as an honored deity corresponding to an inner psycho spiritual condition in which the primitive qualities he represented were fully integrated into consciousness and these qualities were valued and affirmed as holy But in the era of early Christianity Pan dies and the Devil is born a twisted inflation possibly due to an underlying repression In the Jungian system repressed psychic contents do not disappear as proponents of the new order tacitly assume but distort and grow more powerful or inflate to cripple the psyche that refuses to incorporate these split off elements Repressed contents will expand to explosive force as the repressed elements eventually return regressively from below It becomes important then to understand what qualities the primitive Goat God carried to appreciate what was repressed in the Western psycho spiritual system and what subsequently needs reintegration The Cambridge Companion to the Age of Attila Michael Maas, 2015 This book considers the great cultural and geopolitical changes in western Eurasia in the fifth century CE It focuses on the Roman Empire but it also examines the changes taking place in northern Europe in Iran under the Sasanian Empire and on the great Eurasian steppe Attila is presented as a contributor to and a symbol of these transformations *Christians Shaping Identity from the Roman Empire to Byzantium* Geoffrey Dunn, Wendy Mayer, 2015-07-14 The essays collected in *Christians Shaping Identity* celebrate Pauline Allen s significant contribution to early Christian late antique and Byzantine studies especially concerning bishops heresy orthodoxy and christology Covering the period from earliest Christianity to middle Byzantium the first eighteen essays explore the varied ways in which Christians constructed their own identity and that of the society around them A final four essays explore the same theme within Roman Catholicism and oriental Christianity in the late 19th to 21st centuries with particular attention to the subtle relationships between the shaping of the early Christian past and the moulding of Christian identity today Among the many leading scholars represented are Averil

Cameron and Elizabeth A Clark Once Out of Nature Andrea Nightingale,2011-06-01 Once Out of Nature offers an original interpretation of Augustine's theory of time and embodiment Andrea Nightingale draws on philosophy sociology literary theory and social history to analyze Augustine's conception of temporality eternity and the human and transhuman condition In Nightingale's view the notion of embodiment illuminates a set of problems much larger than the body itself it captures the human experience of being an embodied soul dwelling on earth In Augustine's writings humans live both in and out of nature exiled from Eden and punished by mortality they are resident aliens on earth While the human body is subject to earthly time the human mind is governed by what Nightingale calls psychic time For the human psyche always stretches away from the present moment where the physical body persists into memories and expectations As Nightingale explains while the body is present in the here and now the psyche cannot experience self presence Thus for Augustine the human being dwells in two distinct time zones in earthly time and in psychic time The human self then is a moving target Adam Eve and the resurrected saints by contrast live outside of time and nature these transhumans dwell in an everlasting present Nightingale connects Augustine's views to contemporary debates about transhumans and suggests that Augustine's thought reflects our own ambivalent relationship with our bodies and the earth Once Out of Nature offers a compelling invitation to ponder the boundaries of the human

The Making of Medieval Rome Hendrik Dey,2021-10-14 Integrating the written sources with Rome's surviving remains and most importantly with the results of the past half century's worth of medieval archaeology in the city The Making of Medieval Rome is the first in depth profile of Rome's transformation over a millennium to appear in any language in over forty years Though the main focus rests on Rome's urban trajectory in topographical architectural and archaeological terms Hendrik folds aspects of ecclesiastical political social military economic and intellectual history into the narrative in order to illustrate how and why the cityscape evolved as it did during the thousand years between the end of the Roman Empire and the start of the Renaissance A wide ranging synthesis of decades worth of specialized research and remarkable archaeological discoveries this book is essential reading for anyone interested in how and why the ancient imperial capital transformed into the spiritual heart of Western Christendom

In the Active Voice (Routledge Revivals) Mary Douglas,2013-02-01 First published in 1982 this collection of essays is a reproach to a form of the sociology of religion that treats people as the passive objects of impersonal social influences In opposition to this the author seeks to assert an active voice style of thinking about the relations between individuals and their cultural environment whether in economics history or literary criticism This collection is assembled with the guiding principle that all the essays touch upon the borderland between economic values and personal judgements of quality Several essays illustrate the theme from the place of economics in anthropology and the place of economic behaviour in sociological and cultural criticism The essay on Cultural bias suggests a systematic method of analysis for investigating social influences on judgement and choice

The Modern Origins of the Early Middle Ages Ian Wood,2013-09-27 The Early Middle Ages which marked the end of the Roman

Empire and the creation of the kingdoms of Western Europe was a period central to the formation of modern Europe. This period has often been drawn into a series of discourses that are more concerned with the eighteenth, nineteenth, and twentieth centuries than with the distant past. In *The Modern Origins of the Early Middle Ages*, Ian Wood explores how Western Europeans have looked back to the Middle Ages to discover their origins and the origins of their society. Using historical records and writings about the Fall of Rome and the Early Middle Ages, Wood reveals how these influenced modern Europe and the way in which the continent thought about itself. He asks and answers the important question: why is early medieval history or indeed any pre-modern history important? This volume promises to add to the debate on the significance of medieval history in the modern world.

History, Frankish Identity and the Framing of Western Ethnicity, 550-850 Helmut Reimitz, 2015-08-06 This pioneering study explores early medieval Frankish identity as a window into the formation of a distinct Western conception of ethnicity. Focusing on the turbulent and varied history of Frankish identity in Merovingian and Carolingian historiography, it offers a new basis for comparing the history of collective and ethnic identity in the Christian West with other contexts, especially the Islamic and Byzantine worlds. The tremendous political success of the Frankish kingdoms provided the medieval West with fundamental political, religious, and social structures, including a change from the Roman perspective on ethnicity as the quality of the Other to the Carolingian perception that a variety of Christian peoples were chosen by God to reign over the former Roman provinces. Interpreting identity as an open-ended process, Helmut Reimitz explores the role of Frankish identity in the multiple efforts through which societies tried to find order in the rapidly changing post-Roman world.

Fields of Blood Karen Armstrong, 2014-10-28 A sweeping exploration of religion and the history of human violence from the New York Times bestselling author of *The History of God*. Elegant and powerful. Both erudite and accurate, dazzling in its breadth of knowledge and historical detail. *The Washington Post*: "In these times of rising geopolitical chaos, the need for mutual understanding between cultures has never been more urgent. Religious differences are seen as fuel for violence and warfare. In these pages, one of our greatest writers on religion, Karen Armstrong, amasses a sweeping history of humankind to explore the perceived connection between war and the world's great creeds and to issue a passionate defense of the peaceful nature of faith. With unprecedented scope, Armstrong looks at the whole history of each tradition, not only Christianity and Islam but also Buddhism, Hinduism, Confucianism, Daoism, and Judaism. Religions in their earliest days endowed every aspect of life with meaning, and warfare became bound up with observances of the sacred. Modernity has ushered in an epoch of spectacular violence, although as Armstrong shows, little of it can be ascribed directly to religion. Nevertheless, she shows us how and in what measure religions came to absorb modern belligerence and what hope there might be for peace among believers of different faiths in our time."

Masculinities in Christianity and Judaism Bjorn Krondorfer,2013-02-12 Bjorn Krondorfer one of the leading scholars in this field has collected 35 key texts that have shaped this field within the wider area of the study of gender religion and culture The texts in this critical reader engage actively and critically with the position of men in society and church men s privileged relation to the sacred and to religious authority the ideals of masculinity as engendered by religious discourse and alternative trajectories of being in the world whether spiritually relationally or sexually Each of the texts is introduced by the editor and accompanied by bibliographies that make this the ideal tool for study *An Age of Saints?* ,2013-02-06 The

papers collected in this volume explore the strategies through which Christian authorities throughout the early medieval world both established and expressed their social position while at the same time drawing attention to the moments when those same processes were resisted and challenged Where previous studies of Christianisation have for the most part approached the issue of dissent through the continued existence of paganism and the various Christian heresies this volume suggests that the experience of doubt towards and articulation of resistance to the claims of Christian leaders extended far outside the circles of pagan intellectuals and dissident theologians The result is a view of Christianisation as far more piecemeal complex and incomplete than has often been acknowledged Contributors include Peter Turner Peter Kritzinger Collin Garbarino Philip Wood Ralph Lee Richard Payne Mike Humphreys Giorgia Vocino and Gerda Heydemann

Soldiering for God John F. Shean,2010-08-23 This new study argues that the religious attitude of the Roman army was a crucial factor in the Christianization of the Roman world Specifically by the end of the third century there was a significant Christian presence within the army which was ready to act in the interests of the faith Conditions at this time were thus ripe for the coming to power of a Christian emperor when Constantine converted to Christianity he could rely upon the enthusiastic support of his Christian soldiers Constantine strengthened his Christian base by initiating policies which accelerated the Christianization of the army The continuation of these policies by Christian Roman emperors eventually allowed them to use the military as a vehicle for the suppression of paganism and heretical Christian sects Makers of the Western Tradition J. Kelley Sowards,1997-01-15 Through six widely adopted editions Makers of the Western Tradition has

successfully drawn students into the study of history through a biographical approach to important facts and events In two volumes this book examines the impact of 27 key historical figures while it familiarizes students with varieties of historical sources and interpretation **Technology in Transition A.D. 300-650** Luke Lavan, Enrico Zanini, Alexander

Sarantis, 2008-03-31 This book is the first general work to be published on technology in Late Antiquity It seeks to survey aspects of the technology of the period and to respond to questions about technological continuity stagnation and decline The book opens with a comprehensive bibliographic essay that provides an overview of relevant literature The main section then explores technologies in agriculture production metal ceramics and glass engineering and building Papers draw on both archaeological and textual sources and on analogies with medieval and early modern technologies Reference is made not only to the periods which preceded it but to the transition to the Early Middle Ages and to the technological heritage of Late Antiquity to the Islamic world Several papers focus on Italy whilst others consider North Africa Asia Minor and the Near East

Syriac Hagiography , 2020-12-29 Chapters gathered in *Syriac Hagiography Texts and Beyond* explore a wide range of Syriac hagiographical works while following two complementary methodological approaches i e literary and cultic or formal and functional Grouped into three main sections these contributions reflect three interrelated ways in which we can read Syriac hagiography and further grasp its characteristics *Texts as Literature* seeks to unfold the mechanisms of their literary composition *Saints Textualized* offers a different perspective on the role played by hagiographical texts in the invention and or maintenance of the cult of a particular saint or group of saints *Beyond the Texts* presents cases in which the historical reality behind the nexus of hagiographical texts and veneration of saints can be observed in greater details *The ^AWord in the Desert* Douglas Burton-Christie, 1993-02-04 The growing scholarly attention in recent years to the religious world of late antiquity has focused new attention on the quest for holiness by the strange compelling often obscure early Christian monks known as the desert fathers Yet until now little attention has been given to one of the most vital dimensions of their spirituality their astute penetrating interpretation of Scripture Rooted in solitude cultivated in an atmosphere of silence oriented toward the practical appropriation of the sacred texts the desert fathers hermeneutic profoundly shaped every aspect of their lives and became a significant part of their legacy This book explores the setting within which the early monastic movement emerged the interpretive process at the center of the desert fathers quest for holiness and the intricate patterns of meaning woven into their words and their lives
