Klicker,2013-01-11 Among the abundance of material available about death and dying there is a very limited amount that deals directly with the needs of a school community when one of its members dies In addition a great need exists for schools to develop an organized plan for responding to the death of a student or staff member A Student Dies ASchool Mourns aims to fill this gap The book not only examines and explains the grief reactions of students and school staff members and the factors that affect these reactions it also provides a systematic guide for developing a death related crisis response plan This timely book is designed to be a systematic guide that incorporates a thorough analysis of grief in school including normal and abnormal grief reactions factors affecting these grief responses and the differences in death beliefs and responses of students at different ages and developmental stages It also acts as a map or step by step guide for establishing a death related response plan The liberal use of flow charts time tables and action plans turns the often daunting task of creating a response plan into a relatively painless activity stating what must be done who should do it and when Extensive coverage is given to two issues in particular youth suicide and violence murder in the school A Student Dies ASchool Mourns will be a

vital resource for school counselors social workers rehab psychologists school administrators teachers clergy and anyone with an interest in death as it pertains to the school community It will also be of use as a textbook for courses in death and dying educational psychology education and educational administration **The Journal of Home Economics** ,1920
