**Agency** William Slee Walker, 1910      **Meeting of Minds**, 1987      **Getting Through To People** Jesse S. Nirenberg  
Ph.D., 2015-11-06 If you think you can't reach all the people all the time think again Now you can persuade even the most  
stubborn or hostile audience to see your point of view with these proven techniques from Dr Jesse S Nirenberg Through  
dozens of anecdotes you'll learn how to control conversations with emotional people how to hold other people's attention and  
how to decode what people are really trying to tell you And you'll discover how to reach the most shy and private people and  
make them want to open up to you Getting Through to People invites you to join the over 300 000 people using these  
powerful methods to break through the mental barriers that obstruct true person to person communication and enhance your  
personal and business success Audio ed      *Train Your Mind, Change Your Brain* Sharon Begley, 2008-11-12 Cutting edge  
science and the ancient wisdom of Buddhism have come together to reveal that contrary to popular belief we have the power  
to literally change our brains by changing our minds Recent pioneering experiments in neuroplasticity the ability of the brain  
to change in response to experience reveal that the brain is capable of altering its structure and function and even of  
generating new neurons a power we retain well into old age The brain can adapt heal renew itself after trauma compensate  
for disabilities rewire itself to overcome dyslexia and break cycles of depression and OCD And as scientists are learning from  
studies performed on Buddhist monks it is not only the outside world that can change the brain so can the mind and in  
particular focused attention through the classic Buddhist practice of mindfulness With her gift for making science accessible  
meaningful and compelling science writer Sharon Begley illuminates a profound shift in our understanding of how the brain  
and the mind interact and takes us to the leading edge of a revolution in what it means to be human Praise for Train Your  
Mind Change Your Brain There are two great things about this book One is that it shows us how nothing about our brains is  
set in stone The other is that it is written by Sharon Begley one of the best science writers around Begley is superb at  
framing the latest facts within the larger context of the field This is a terrific book Robert M Sapolsky author of Why Zebras
