A tour de force of scholarship analysis and narration Lloyd is well on the way to writing a definitive history of the First World War Lawrence James Times The Telegraph Best Books of the Year The Times of London Best Books of the Year A panoramic history of the savage combat on the Western Front between 1914 and 1918 that came to define modern warfare The Western Front evokes images of mud spattered men in waterlogged trenches shielded from artillery blasts and machine gun fire by a few feet of dirt This iconic setting was the most critical arena of the Great War a 400 mile combat zone stretching from Belgium to Switzerland where more than three million Allied and German soldiers struggled during four years of almost continuous combat It has persisted in our collective memory as a tragic waste of human life and a symbol of the horrors of industrialized warfare In this epic narrative history the first volume in a groundbreaking trilogy on the Great War acclaimed military historian Nick Lloyd captures the horrific fighting on the Western Front beginning with the surprise German invasion of Belgium in August 1914 and taking us to the Armistice of November 1918 Drawing on French British German and American sources Lloyd weaves a kaleidoscopic chronicle of the Marne Passchendaele the Meuse Argonne and other critical battles which reverberated across Europe and the wider war From the trenches where men as young as 17 suffered and died to the headquarters behind the lines where Generals Haig Joffre Hindenburg and Pershing developed their plans for battle Lloyd gives us a view of the war both intimate and strategic putting us amid the mud and smoke while at the same time depicting the larger stakes of every encounter He shows us a dejected Kaiser Wilhelm II soon to be eclipsed in power by his own generals lamenting the botched Schlieffen Plan French soldiers piling atop one another in the trenches of Verdun British infantryman wandering through the frozen wilderness in the days after the Battle of the Somme and General Erich Ludendorff pursuing a ruthless policy of total war leading an eleventh hour attack on Reims even as his men succumbed to the Spanish Flu As Lloyd reveals far from a site of attrition and stalemate the Western Front was a simmering dynamic cauldron of war defined by extraordinary scientific and tactical innovation It was on the Western Front that the modern technologies machine guns mortars grenades and howitzers were refined and developed into effective killing machines It was on the Western Front that chemical warfare in the form of poison gas was first unleashed And it was on the Western Front that tanks and aircraft were introduced causing a dramatic shift

away from nineteenth century bayonet tactics toward modern combined arms reinforced by heavy artillery that forever changed the face of war Brimming with vivid detail and insight *The Western Front* is a work in the tradition of Barbara Tuchman and John Keegan Rick Atkinson and Antony Beevor an authoritative portrait of modern warfare and its far reaching human and historical consequences

Colonel House Charles E. Neu, 2014-11-28 A man who lived his life mostly in the shadows Edward M House is little known or remembered today yet he was one of the most influential figures of the Wilson presidency Wilson's chief political advisor House played a key role in international diplomacy and had a significant hand in crafting the Fourteen Points at the Paris Peace Conference Though the intimate friendship between the president and his advisor ultimately unraveled in the wake of these negotiations House's role in the Wilson administration had a lasting impact on 20th century international politics In this seminal biography Charles E Neu details the life of Colonel House a Texas landowner who rose to become one of the century's greatest political operators Ambitious and persuasive House worked largely behind the scenes developing ties of loyalty and using patronage to rally party workers behind his candidates In 1911 he met Woodrow Wilson and almost immediately the two formed what would become one of the most famous friendships in American political history House became a high level political intermediary in the Wilson administration proving particularly adept at managing the intangible realm of human relations After World War I erupted House realizing the complexity of the struggle and the dangers and opportunities it posed for the United States began traveling to and from Europe as the president's personal representative Eventually he helped Wilson recognize the need to devise a way to end the war that would place the United States at the center of a new world order In this balanced account Neu shows that while House was a resourceful and imaginative diplomat his analysis of wartime politics was erratic He relied too heavily on personal contacts often exaggerating his accomplishments and missing the larger historical forces that shaped the policies of the warring powers Ultimately as the Paris Peace Conference unfolded differences appeared between Wilson and his counselor Their divergent views on the negotiations led to a bitter split and after the president left France in June of 1919 he would never see House again Despite this break Neu refutes the idea that Wilson and House were antagonists They shared the same beliefs and aspirations and were Neu shows part of an unusual partnership As an organizer tactician and confidant House helped to make possible Wilson's achievements and this impressive biography restores the enigmatic counselor to his place at the center of that presidency

Quarterly Review of Military Literature, 1928

In Flanders Flooded Fields Paul Van Pul, 2007-01-17 In October 1914 four armies were converging on Dunkirk While France was preparing to defend its main Channel port the Germans were determined to take it while the British were busy using it Caught in the middle was the Belgian Army Belgium was almost totally overrun save for a small strip of land near the Pas de Calais This is the story of what happened between Antwerp and Dunkirk that fateful month and how the King of the Belgians safeguarded the independence of his small nation from its all powerful neighbours Contains 25 custom made maps several drawings and 138 seldom seen

photographs **Anglo-French Relations and Strategy on the Western Front, 1914-18** William J. Philpott, 2016-07-27
 This book is a study of Anglo French relations and military policy making in the First World War which considers the strategic policies and operational planning of the British and French armies in the joint campaign fought on the western front. It examines the influence of incompatible British and French strategic objectives, the role of the allies' military and political leaders and the institutional development of the military alliance on the alliance relationship and military policy making.

Gallipoli Jenny Macleod, 2004-07-01 This new book traces the disparities in the memory of Gallipoli that are evident in the countries that participated in the campaign. It explores the way in which history is written at the personal, local, professional and national levels.

Cultured Force Barnett Singer, John W. Langdon, 2004 Bridging gaps between intellectual history, biography and military colonial history, Barnett Singer and John Langdon provide a challenging, readable interpretation of French imperialism and some of its leading figures from the early modern era through the Fifth Republic. They ask us to rethink and reevaluate, pulling away from the usual shoal of simplistic condemnation. In a series of finely etched biographical studies and with much detail on both imperial culture and wars including World War I and II, they offer a balanced, deep, strong portrait of key makers and defenders of the French Empire, one that will surely stimulate much historical work in the field.

Raymond Poincaré J. F. V. Keiger, 2002-04-04 This study is a scholarly biography of one of France's foremost political leaders. In a career which ran from the 1880s to the 1930s, one of the most formative periods of modern French history, Poincaré held the principal offices of state. He played crucial roles in France's entry into the Great War, the organisation of the war effort, the peace settlement, the reparations question, the occupation of the Ruhr and the reorganisation of French finances in the 1920s. His life and work is surrounded by controversy and myth, from Poincaré la guerre to Poincaré le franc, which this book dissects. Using a host of new archival material, Professor Keiger explores the historiography of the man and his times and reveals, somewhat surprisingly, how animal rights and feminism could be as important to him as party politics and public finance.

The Lost History of 1914 Jack Beatty, 2012-02-22 In *The Lost History of 1914*, Jack Beatty offers a highly original view of World War I, testing against fresh evidence the long dominant assumption that it was inevitable. Most books set in 1914 map the path leading to war. Beatty writes, 'This one maps the multiple paths that led away from it.' Chronicling largely forgotten events faced by each of the belligerent countries in the months before the war started in August, Beatty shows how any one of them—a possible military coup in Germany, an imminent civil war in Britain, the murder trial of the wife of the likely next premier of France who sought détente with Germany—might have derailed the war or brought it to a different end. In Beatty's hands, these stories open into epiphanies of national character and offer dramatic portraits of the year's major actors: Kaiser Wilhelm, Tsar Nicholas II, Woodrow Wilson, along with forgotten or overlooked characters such as Pancho Villa, Rasputin and Herbert Hoover. Europe's ruling classes, Beatty shows, were so haunted by fear of those below that they mistook democratization for revolution and were tempted to escape forward into war to head it off.

Beatty's powerful rendering of the combat between August 1914 and January 1915 which killed more than one million men restores lost history revealing how trench warfare long depicted as death's victory was actually a life saving strategy. Beatty's deeply insightful book as elegantly written as it is thought provoking and probing lights a lost world about to blow itself up in what George Kennan called the seminal catastrophe of the twentieth century. It also arms readers against narratives of historical inevitability in today's world. **Military Review**, 1927 **Review of Current Military Literature**, 1929

Ideology, Politics, and Diplomacy in East Central Europe Mieczysław B. Biskupski, 2003. No region of the world has been more affected by the various movements of the twentieth century than East Central Europe. Broadly defined as comprising the historic territories of the Czechs, Hungarians, Poles, and Slovaks, East Central Europe has been shaped by the interaction of politics, ideology, and diplomacy, especially by the policies of the Great Powers towards the east of Europe. This book addresses Czech politics in Moravia and Czech politics in Bohemia in the nineteenth century, the international politics of relief during World War I, the Morgenthau Mission, and the Polish Pogroms of 1919, the Hitler-Stalin Pact and its influence on Poland in 1939, Hungarian Americans during World War II, and Polish-East German relations after World War II. Contributors: Bruce Garver, M. B. Biskupski, Neal Pease, William L. Blackwood, Anna M. Cieniala, Steven Bela Vardy, and Douglas Selvage. M. B. Biskupski is Professor of History at Central Connecticut State University.
