Metropolitan Transportation Politics and the New York Region Jameson W. Doig, 1963 **Metropolitan Transportation Politics and the New York Region** Jameson Wallace Doig, 1966 **Metropolitan Transportation Politics and the New York Region** Jameson J. Doig, 1966 **Politics and Social Change** Ishwaran, 2022-09-12 New York Michael N. Danielson, Jameson W. Doig, 1983-10-03 Studies the cultural economic political and social forces influencing life in New York City **Regional Governance: Promise and Performance** United States. Advisory Commission on Intergovernmental Relations, 1973 **Substate Regionalism and the Federal System: Regional governance: promise and performance; case studies** United States. Advisory Commission on Intergovernmental Relations, 1973 **Substate Regionalism and the Federal System** United States. Advisory Commission on Intergovernmental Relations, 1973 The Oxford Handbook of New York State Government and Politics Gerald Benjamin, 2012-09-20 The Oxford Handbook of New York State Government and Politics brings together top scholars and former and current state officials to explain how and why the state is governed the way that it is The book s thirty one chapters assemble new scholarship in key areas of governance in New York document the state s record in comparison to other U S states and identify directions for future research *The Quest for Regional Cooperation* Joan B. Aron, **Urban Public Policy** Martin V. Melosi, 2010-11 The 1992 Los Angeles riots catapulted the problems of the city back onto the policy agenda The cauldron of social problems of the city as the riots showed offers no simple solutions Indeed urban policy includes a range of policy issues involving welfare housing job training education drug control and the environment The myriad of local state and federal agencies only further complicates formulating and implementing coherent policies for the city This volume while not offering specific proposals to remedy the problems of the city provides a broad historical context for discussing contemporary urban policy and for arriving at new prescriptions for relieving the ills of the American city The essays address issues related to public housing poverty transportation and the environment In doing so the authors discuss larger themes in urban policy as well as provide case studies of how policies have been implemented over time in specific cities Of particular interest are two essays that discuss the role of the historian in shaping urban policy and the importance of historical preservation in urban planning *Regional Decision Making: New Strategies for Substate Districts* United States. Advisory Commission on Intergovernmental Relations, 1973 Regional Governance and the Politics of Housing in the San Francisco Bay Area Paul G. Lewis, Nicholas J. Marantz, 2023-03-17 Analyzes how the structure of government in the San Francisco Bay Area complicates efforts to address the region s housing shortage and identifies options for reform drawing larger lessons about the dangers of fragmented local authority *Constructing Metropolitan Space* Jill Simone Gross, Enrico Gualini, Lin Ye, 2018-12-07 There is little question today that processes of globalization affect national and local economies governance processes and conditions for economic competitiveness in the major urban regions of the world In most liberal democratic countries these processes are occurring

according to a rationale which attempts to combine strategies of state supported development with increasing local regional governmental decentralization and autonomy Against this background the issue of metropolitan development is being redefined worldwide along with its institutional frameworks modes of governance policy instruments and spatial planning strategies The overarching assumption of this volume is that metropolitan space far from being consolidated as a policy object is currently being redefined and in some instances constructed and contested as a scale through a variety of policy practices related to spatial economic development objectives Through case studies drawn from across four continents the authors reveal a range of interesting cross national commonalities concerning the power that state actors situated at various spatial scales exert as agents in these processes This volume interrogates key research issues raised by these developments and is intended as a contribution to the establishment of a globally comparative analysis of the construction of metropolitan spaces and scales under conditions of globalization and neoliberalization

Discovering American Regionalism David Miller, Jen Nelles, 2018-07-17 Regions are difficult to govern coordinating policies across local jurisdictional boundaries in the absence of a formal regional government gives rise to enormous challenges Yet some degree of coordination is almost always essential for local governments to effectively fulfill their responsibilities to their citizens State and local governments have over time awkwardly and with much experimenting developed common approaches to regional governance In this revolutionary new book authors David Miller and Jen Nelles offer a new way to conceptualize those common approaches Regional Intergovernmental Organizations RIGOs that bring together local governments to coordinate policies across jurisdictional boundaries RIGOs are not governments themselves but as Miller and Nelles demonstrate they do have a measure of political authority that allows them to quietly and sometimes almost invisibly work to further regional interests and mitigate cross boundary irritations Providing a new conceptual framework for understanding how regional decision making has emerged in the U S this book will provoke a new and rich era of discussion about American regionalism in theory and practice *Discovering American Regionalism* will be a future classic in the study of intergovernmental relations regionalism and cross boundary collaboration

The Landscape of Modernity David Ward, Oliver Zunz, 1997-04-23 Creating the modern city Planning for New York City Real estate values zoning density intervention Building the vertical city Empire State Building Going from home to work Subways transit politics Sweatshop migration Identity Little Italy s decline Jewish neighbourhoods Cities of light Street lighting

New York and Los Angeles David Halle, Andrew A. Beveridge, 2013-05-07 This interdisciplinary analysis of New York and Los Angeles the nation s two largest cities and urban regions is the first in depth study of the two cities and regions to incorporate new census data and an analysis of the impact of the ongoing financial crisis and economic recession The chapters authored by leading experts from each coast argue that old paradigms such as urban decline or resurgence are inadequate for grasping the new challenges and complexities facing these global cities

Regionalism and Realism Gerald Benjamin, Richard P. Nathan, 2001-06-01 Drawing on the history of state and local

government in the New York Tri State metropolitan region the authors present a pathbreaking new theory about the values reformers must understand and balance in order to tackle the hard challenges of reforming and regionalizing local governance in the complex dynamic world of American politics and public policy Their examination of the way 2 179 local governments in the Tri State region have evolved over more than a century pays special attention to New York City but is applicable to other metropolitan areas It brings to life ideas that are crucial to a subject that in the academic literature is often treated in a way that is abstract and hard to grasp This is a valuable book for scholars political leaders and students interested in regionalism in metropolitan America and in the fascinating history and governance of the nation s largest city and its vast metropolitan region *Proceedings of the Academy of Political Science* ,1968 **Metropolitanization and**

Public Services Charles M. Haar,John G. Wofford,David L. Kirp,David K. Cohen,Leonard J. Duhl,Allen V. Haefele,2015-09-25 Metropolitanization and Public Services is third in a series on the governance of metropolitan regions which aims to explore the welfare and development of Metropolitan America Originally published in 1972 this study discusses who decides which essential public services need to be provided within a metropolitan area by looking at political reform as well as presenting ideas on functional efficiency costs and benefits and the effectiveness of the political process This title will be of interest to students of environmental studies
