Daughters of the Canton Delta Janice Stockard,1992-03-01 This book describes an extraordinary traditional marriage system delayed transfer marriage that is virtually unknown in the ethnographic literature on Chinese Society though it was widely established in the Canton Delta In striking contrast to the orthodox Confucian form of marriage brides in delayed transfer marriages were required to separate from their husband shortly after marriage and return to live with their parents for at least three more years During this customary period of separation brides were expected to visit their husband on several festival occasions each year Ideally brides became pregnant about three years after marriage and then settled in the husband's home The area in which delayed transfer marriage was the customary and dominant form of marriage encompassed the rich silk producing district of the Canton Delta as well as adjacent rice producing areas The book analyzes the effect of economic change on the practice of delayed transfer marriage in the silk district

Political Manhood Kevin P. Murphy,2010-08-06 In a 1907 lecture to Harvard undergraduates Theodore Roosevelt claimed that colleges should never turn out mollycoddles instead of vigorous men warning that the weakling and the coward are out of place in a strong and free community A paradigm of ineffectuality and weakness the mollycoddle was all inner life whereas his opposite the red blood was a man of action Kevin P Murphy reveals how the popular ideals of American masculinity coalesced around these two distinct categories Because of its similarity to the emergent homosexual type the mollycoddle became a powerful rhetorical figure often used to marginalize and stigmatize certain political actors Murphy's history follows the redefinition of manhood across a variety of classes especially in the work
