Grant, Joy L. Lei, 2001-06-01 This book tells us how various global regions are dealing with three major concerns within the field of multicultural education the conceptualization and realization of difference and diversity the inclusion and exclusion of social groups within a definition of multicultural education and the effects of power on relations between and among groups identified under the multicultural education umbrella All of the chapter authors pay attention to these themes but at the same time they bring their particular interests and perspectives to the book addressing issues such as linguistic racial ethnic and religious diversity class educational inequalities teacher education conceptualizations of citizenship and questions of identity construction In addition the authors offer both historical and social contexts for their analytical discussion of the ideals and practices of multicultural education in a particular region This is not a book that tells us about multicultural education with an international twist it provides readers with different ways to think talk and do research about issues of diversity difference and the effects of power as they relate to education Learning from Difference: Comparative Accounts of Multicultural Education Joseph Lo Bianco, Aydin Bal, 2016-03-30 This book analyses the experiences of multicultural education in nine very different international settings uncovering insights from a vast variety of educational contexts Taking

a multi critical approach in reporting and discussing problems faced by increasingly multicultural and multilingual societies the nine case studies reflect radically different assumptions about what counts as difference and what should be the appropriate ways for education systems to respond to differences While each country s approach seems unique analysis of the divergent treatments of internal population diversity elicits a genuinely global instance of the increasingly shared phenomenon of cultural pluralism Discussing various successes and failures of policy enactment theory pedagogy and management of diversity the book isolates both the differences and similarities in the unique geopolitical and socio historical contexts of the countries investigated A key value of the book is that it greatly expands the range of settings experiences epistemologies ontologies and practical experiences that are typically encountered in mainstream discussion of what counts as multicultural education In effect all societies are in some way dealing with difference this volume helps widen the scope of reflection and thus facilitates increased global learning from difference Teaching and Learning in a Diverse World
