charge of the task have received little to no training in the issues that are paramount in serving culturally diverse students. The book provides the strategies, frameworks, and expert guidance for recognizing and addressing multicultural issues in institutions of higher learning. Offers a rich understanding of both Multicultural Organizational Development (MCO) and the Multicultural Change Intervention Matrix (MCIM) and how these models are important for evaluating environments and outcomes. Is appropriate for those who serve students directly as well as higher education leaders and administrators who create professional development programs. experience significantly predicted multicultural competence scores And finally while no significant relationships were found between multicultural competence and the three specific areas of orientation practice examined the study provided evidence that more direct connections between multicultural competence research and practice are needed The implications of this study are discussed focusing on student affairs training and development orientation practice measurement of multicultural competence and directions for future research In sum this study contributes to the heretofore limited literature addressing multicultural competence in student affairs specifically within the functional area of orientation
