Multiple Sclerosis Lanny E. Perkins, Sara Perkins, 1999 Significant legislative changes have taken place in the 10 years since their first edition of this book The Americans with Disabilities Act ADA the Family and Medical Leave Act FMLA and the Health Insurance Portability and Accountability Act Kassebaum Kennedy or HIPAA are the best known of these innovations Despite these legal advances many of the problems faced by people with MS have remained unaltered Because of the variability of symptoms both from person to person and over time within each patient no one's experience is identical to that of anyone else This presents special difficulties in planning for the future Where you are in your life in school employed married divorced with or without children and what you hope to achieve may influence how you are affected by the disease Even so there are important steps that everyone can take to help ensure that the hand of cards she is dealt is well played Ironically new legislation like ADA FMLA and insurance reform have both helped and complicated the planning process For example you fear you are about to be laid off Is it time to consider
