Mummy Congress Heather Pringle,2001-07-01 Mummies experts and breaking science revealed in journalist Pringle s fascinating dive into a little known arena of human studies Perhaps the most eccentric of all scientific meetings the World Congress on Mummy Studies brings together mummy experts from all over the globe and airs their latest findings Who are these scientists and what draws them to this morbid yet captivating field The Mummy Congress written by acclaimed science journalist Heather Pringle examines not just the world of mummies but also the people obsessed with them Mummies and Death in Egypt Françoise Dunand,Roger Lichtenberg,2006 Today a good century after the first X rays of mummies Egyptology has the benefit of all the methods and means at the disposal of forensic medicine The mummy stories we tell have changed their tone but they have enjoyed much success with fantastic scientific and technological results resolving the mysteries of the ancient land of the pharaohs from the Foreword Mummies are the things that fascinate us most about ancient Egypt But what are mummies How did the Egyptians create them And why What became of the people they once were We are learning more all the time about the cultural processes surrounding mummification and the medical characteristics of ancient Egyptian mummies In the first part of *Mummies and Death in Egypt* Fran oise Dunand gives an overview of the history of mummification in Egypt from the prehistoric to the Roman period She thoroughly describes the preparations of the dead tombs and their furnishings funerary offerings ornamentation of the corpse coffins and canopic jars and she includes a separate chapter on the mummification of animals She links these various practices and behaviors to the religious beliefs of classical Egypt In the second part of this book Roger Lichtenberg a physician and archaeologist offers a fascinating narrative of his forensic research on mummies much of it conducted with a portable X ray machine on archaeological digs His findings have revealed new information on the ages of the mummified their causes of death and the illnesses and injuries they suffered Together Dunand and Lichtenberg provide a state of the art account of the science of

mummification and its social and religious context **The Journal of Egyptian Archaeology** ,1914 The Mummy E. A. Wallis Budge,1998-08-01 Anchoring Science and Technology in Greco-Roman Antiquity ,2024-12-19 This collection of essays explores processes of innovation in Greco Roman technology and science It uses the concept of anchoring to investigate the microhistories of technological and scientific practices and ideas The volume combines broad theoretical essays with more targeted case studies of individual inventions and innovations In doing so it moves beyond the emphasis on achievement that has traditionally characterized modern scholarship on ancient technology and science Instead the chapters of this volume analyse the manifold ways in which new technologies and ideas were anchored in what was already known and familiar and highlight how once familiar technologies and ideas could themselves become anchoring points for inventions and innovations
