modes of plant depiction emerged and ultimately gave rise to practices now recognized as central to modern botanical illustration. The author draws on centuries of remarkable and varied documentation from across Europe and the Mediterranean. Lavishly illustrated *Botanical Icons* marshals ample evidence for a dynamic and critical tradition of botanical inquiry and nature observation in the late antique and medieval Mediterranean. The author reveals that many of the critical practices characteristic of modern botanical illustrations began in premodern manuscript culture. Consequently, he demonstrates that the distinctions between pre and early modern botanical illustration center more on the advent of print, the expansion of collections and documentation, and the narrowing of the range of accepted forms of illustration than on the invention of critical and observational practices exclusive to modernity. Griebeler's emphasis on continuity, intercultural collaboration, and the gradual transformation of Mediterranean traditions of critical botanical illustration persuasively counters previously prevalent narratives of rupture and Western European exceptionalism in the histories of art and science.

Handbook of Medieval Studies Albrecht Classen, 2010-11-29 This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last decades. The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves about the current status of research in the field. The handbook consists of four parts. The first large section offers articles on all of the main disciplines and discussions of the field. The second section presents articles on the key concepts of modern medieval studies and the debates therein. The third section is a lexicon of the most important text genres of the Middle Ages. The fourth section provides an international bio-bibliographical lexicon of the most prominent medievalists in all disciplines. A comprehensive bibliography rounds off the compendium. The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines and experts of the field together.

Intelligent Action Tim Ridlen, Timothy Ridlen, 2024 *Intelligent Action: A History of Artistic Research, Aesthetic Experience, and Artists in Academia* explores how conceptual and performance artists of the long 1960s developed oppositional practices within and alongside the American university, an institution that registers the priorities of capitalism, technological change, and social justice movements in intensified ways.
