Prehistory in the Pacific Islands John Terrell,1986 How asks John Terrell in this richly illustrated and original book can we best account for the remarkable diversity of the Pacific Islanders in biology language and custom Traditionally scholars have recognized a simple racial division between Polynesians Micronesians Melanesians Australians and South east Asians peoples allegedly differing in physical appearance temperament achievements and perhaps even intelligence Terrell shows that such simple divisions do not fit the known facts and provide little more than a crude static picture of human diversity

Sketching for Engineers and Architects Ron Slade,2016-05-20 Using real working drawings from a 50 year career Ron Slade shows how drawing remains at the heart of the design process in the everyday working life of engineers and architects The book explains simple techniques that can be learnt and used to enhance any professional s natural ability Using over 180 categorised examples it demonstrates that drawing remains the fastest clearest and most effective means of design communication Unlike many other books on drawing in the construction industry this book is engineer led and science oriented but effectively shows that there is a close affinity between the working methods of architects and engineers

The History of Libya Bukola A. Oyeniyi,2019-03-22 Covers Libyan history from the prehistoric period through the Phoenician Roman and Islamic Ottoman periods to Italian colonization independence and the 2011 uprising and civil war Libya experienced its own Arab Spring in February of 2011 ultimately leading to a civil war in which different groups have since been vying for power How did the events of Libya s past lead to this point This

addition to the Greenwood Histories of the Modern Nations series takes a chronological approach to examining Libyan history. Considering the history of Libya from its earliest times to the present, it features government records, memoirs, and diaries and provides a general overview of the history of Libya as well as a discussion on geography. While not discounting the contributions of traders and invaders to Libya's history, this book, unlike others, identifies and traces the histories of indigenous Libyans, showcasing their achievements while situating them within the broader context of contact with Libya had by groups of people from Europe to the Arabian Peninsula. By demonstrating that Libyans had their own unique history prior to colonization, the book works to essentially decolonize Libyan history. Rounding out the chapters are a timeline, glossary, appendix of notable people, and annotated bibliography.

The History of Syria John A. Shoup, 2018-10-25 Syria is a country in turmoil, making headlines almost daily with news about its violent civil war and refugee crisis. This one-volume addition to the Greenwood Histories of the Modern Nations series focuses on the events in the history of Syria from ancient times to the present, allowing readers to place current events within the context of the country's history. Following the series format, the book opens with a timeline of key events in Syria's history. An introductory chapter provides a broad overview of life in Syria today. Chronologically arranged chapters follow, beginning with Prehistory to the Byzantine Period. The latter half of the volume focuses on the modern historic events that have occurred since World War II. A glossary of terms, an appendix of notable people, and an annotated bibliography round out the work, making it an ideal resource for high school students, undergraduates, and other general readers who are looking for an introductory text on Syrian history.
