Nuremberg Vietnam An American Tragedy:

Nuremberg and Vietnam Telford Taylor, 1970 *Revisiting the Vietnam War and International Law* Stefan Andersson, 2017-12-28 This collection of scholarly and critical essays about the legal aspects of the Vietnam War explores various crimes committed by the United States against North Vietnam war of aggression war crimes in bombing civilian targets such as schools and hospitals and using napalm cluster bombs and Agent Orange crimes against humanity in moving large parts of the population to so called strategic hamlets and alleged genocide and ecocide International lawyer Richard Falk who observed these acts personally in North Vietnam in 1968 uses international law to show how they came about This book brings together essays that he has written on the Vietnam War and on its relationship to international law American foreign policy and the global world order Falk argues that only a stronger adherence to international law can save the world from such future tragedies and create a sustainable world order *Vietnam Awakening* Michael Uhl, 2014-11-29 In this vividly honest memoir author Michael Uhl details his experiences in Vietnam as first lieutenant of a counterintelligence team attached to the 11th Infantry Referencing his personal journal and wartime correspondence with friends and family the author relives the most shocking events that he witnessed during his military service including the abuse and torture of several Vietnamese civilians In Part Two the author outlines his years as an activist with the veterans movement against the Vietnam War **Vietnam** Joe Allen, 2016-12-05 As the United States now faces a major defeat in its occupation of Iraq the history of the Vietnam War as a historic blunder for US military forces abroad and the true story of how it was stopped take on a fresh importance Unlike most books on the topic constructed as specialized academic studies *The Last War the United States Lost* examines the lessons of the Vietnam era with Joe Allen s eye of both a dedicated historian and an engaged participant in today s antiwar movement Many damaging myths about the Vietnam era persist including the accusations that antiwar activists routinely jeered and spat at returning soldiers or that the war finally ended because Congress cut off its funding Writing in a clear and accessible style Allen reclaims the stories of the courageous GI revolt its dynamic relationship with the civil rights movement and the peace movement the development of coffee houses where these groups came to speak out debate and organize and the struggles waged throughout barracks bases and military prisons to challenge the rule of military command Allen s analysis of the US failure in Vietnam is also the story of the hubris of US imperial overreach a new chapter of which is unfolding in the Middle East today Joe Allen is a regular contributor to the *International Socialist Review* and a longstanding social justice fighter involved in the ongoing struggles for labor the abolition of the death penalty and to free the political prisoner Gary Tyler *Victimhood Nationalism* Jie-Hyun Lim, 2025-04-01 Nationalism today depends on the perception of victimhood The historical memory of past suffering endows nationalist movements with political legitimacy and a sense of moral superiority Koreans recall Japanese colonial atrocities while Japan commemorates the atomic bombings of Hiroshima and Nagasaki Israel sanctifies the Holocaust and Poland trumpets the Nazi and Soviet occupations Even Germany

and Russia perpetrators of historical crimes today cast themselves as victims by pointing to national suffering In this theoretically sophisticated and empirically rich book Jie Hyun Lim offers a new way to understand nationalism and its political instrumentalization of suffering developing the concept of victimhood nationalism and exploring it in a range of global settings He examines relations among Poland Germany Israel Korea and Japan focusing on how memories of colonialism the Holocaust and Stalinist terror have converged and intertwined in transnational spaces With an emphasis on memory formation Lim scrutinizes how perpetrators in Germany and Japan transformed themselves into victims as well as how nationalists in Poland Korea and Israel portray themselves as hereditary victims in order to rebut external criticism He considers the construction of nations as victims and perpetrators tracing the interaction of history and memory Ultimately the book contends challenging victimhood nationalism is necessary to overcome the endless competition over national suffering and instead promote reconciliation mutual understanding and transnational solidarity **American**

Exceptionalism and the Legacy of Vietnam Trevor McCrisken, 2003-12-19 American Exceptionalism and the Legacy of Vietnam examines the influence of the belief in American exceptionalism on the history of U S foreign policy since the Vietnam War Trevor B McCrisken analyzes attempts by each post Vietnam U S administration to revive the popular belief in exceptionalism both rhetorically and by pursuing foreign policy supposedly grounded in traditional American principles He argues that exceptionalism consistently provided the framework for foreign policy discourse but that the conduct of foreign affairs was limited by the Vietnam syndrome America's War in Vietnam Larry H. Addington, 2000-04-22

If you want to read one book about Vietnam read this one New York Review of Books Drawing on years of experience teaching about the war Larry H Addington presents a short narrative history of the origins course and outcome of America s military involvement in Vietnam Not intended as a competitor to the many excellent comprehensive studies of the Vietnam Era this book will prove a useful introduction and a concise reference to America s longest most controversial war Addington reviews the history of pre colonial Vietnam the impact of French imperialism and the Indochina War and the Cold War origins of American involvement He then details US policy after the 1954 Geneva Accords its role in the establishment of South Vietnam and the outbreak of a new war Turning to America s deepening involvement Addington examines the US strategies for waging air and ground war the impact of the war at home and the reasons for the failure of US policy under President Johnson He studies the successes and failures of the policy of withdrawal under President Nixon and concludes with an overview of the war s aftermath and its legacy **The Globalization of International Law** Paul Schiff Berman, 2017-07-05

International law is no longer a sufficient rubric to describe the complexities of law in an era of globalization Accordingly this collection situates cross border norm development at the intersection of interdisciplinary scholarship on comparative law conflict of laws civil procedure cyberlaw legal pluralism and the cultural analysis of law as well as traditional international law It provides a broad range of seminal articles on transnational law making governmental and non governmental networks

judicial influence and cooperation across borders the dialectical relationships among national international and non state legal norms and the possibilities of bottom up and plural law making processes The introduction situates these articles within the framework of law and globalization and suggests four important ways in which such a framework enlarges the traditional focus of international law This book therefore provides a crucial reference for scholars and practitioners seeking to understand the varied processes of norm development in the emerging global legal order **Vietnam** John Prados,2009 The first major synthesis of the war since 2001 drawing upon a host of newly declassified documents presidential tapes and overlooked foreign sources to give the most comprehensive look to date of the war that still haunts America A Violent Peace Christine Hong,2020-08-11 A Violent Peace offers a radical account of the United States transformation into a total war state As the Cold War turned hot in the Pacific antifascist critique disclosed a continuity between U S police actions in Asia and a rising police state at home Writers including James Baldwin Ralph Ellison and W E B Du Bois discerned in domestic strategies to quell racial protests the same counterintelligence logic structuring America s devastating wars in Asia Examining U S militarism s centrality to the Cold War cultural imagination Christine Hong assembles a transpacific archive placing war writings visual renderings of the American concentration camp Japanese accounts of the atomic bombing of Hiroshima black radical human rights petitions Korean War era G I photographs Filipino novels on guerrilla resistance and Marshallese critiques of U S human radiation experiments alongside government documents By making visible the way the U S war machine waged informal wars abroad and at home this archive reveals how the so called Pax Americana laid the grounds for solidarity imagining collective futures beyond the stranglehold of U S militarism
