Nurses In Nazi Germany:

Nurses in Nazi Germany Bronwyn Rebekah McFarland-Icke, 2020-11-10 This book tells the story of German nurses who directly or indirectly participated in the Nazis euthanasia measures against patients with mental and physical disabilities measures that claimed well over 100 000 victims from 1939 to 1945 How could men and women who were trained to care for their patients come to kill or assist in murder or mistreatment This is the central question pursued by Bronwyn McFarland Icke as she details the lives of nurses from the beginning of the Weimar Republic through the years of National Socialist rule Rather than examine what the Party did or did not order she looks into the hearts and minds of people whose complicity in murder is not easily explained with reference to ideological enthusiasm Her book is a micro history in which many of the most important ethical social and cultural issues at the core of Nazi genocide can be addressed from a fresh perspective McFarland Icke offers gripping descriptions of the conditions and practices associated with psychiatric nursing during these years by mining such sources as nursing guides personnel records and postwar trial testimony Nurses were expected to be conscientious and friendly caretakers despite job stress low morale and Nazi propaganda about patients having lives unworthy of living While some managed to cope with this situation others became abusive Asylum administrators meanwhile encouraged nurses to perform with as little disruption and personal commentary as possible So how did nurses react when ordered to participate in or tolerate the murder of their patients Records suggest that some had no conflicts of conscience others did as they were told with regret and a few refused The remarkable accounts of these nurses enable the author to re create the drama taking place while sharpening her argument concerning the ability and the willingness to choose

History of the U.S. Army Nurse Corps Mary T. Sarnecky, 1999-11 Traces the history of the corps since its founding in 1901 A work essential to any study of the corps or military medicine Choice **German Women's Life Writing and the**

Holocaust Elisabeth Krimmer, 2018-09-20 This important study examines women's life writing about the Second World War and the Holocaust such as memoirs, diaries, docunovels and autobiographically inspired fiction. Through a historical and literary study of the complex relationship between gender, genocide and female agency, the author analyzes correct androcentric views of the Second World War and seeks to further our understanding of a group that although crucial to the functioning of the National Socialist regime has often been overlooked: that of the complicit bystander. Chapters on army auxiliaries, nurses, female refugees, rape victims and Holocaust survivors analyze women's motivations for enlisting in the National Socialist cause as well as for their continuing support for the regime and in some cases their growing estrangement from it. The readings allow insights into the nature of complicity itself, the emergence of violence in civil society and the possibility of social justice.

Women as Wartime Rapists Laura Sjoberg, 2016-11-22 *Women as Wartime Rapists* reveals the stories of female perpetrators of sexual violence and their place in wartime conflict, legal policy and the punishment of sexual violence. Very few women are wartime rapists. Very few women issue commands to commit sexual violence. Very few women play a role in making war plans that feature the intentional sexual violation of other women. This book is about those very few women. More broadly, Laura Sjoberg asks what the actions and perceptions of female perpetrators of sexual violence reveal about our broader conceptions of war, violence, sexual assault and gender. This book explores specific historical case studies such as Nazi Germany, Serbia, the contemporary case of ISIS and others to understand how and why women participate in rape during war and conflict. Sjoberg examines the contrast between the visibility of female victims and the invisibility of female perpetrators as well as the distinction between rape and genocidal rape, which is used as a weapon against a particular ethnic or national group. Further, she explores women's engagement with genocidal rape and how some orchestrated the ethnic cleansing of entire regions. A provocative approach to a sensationalized topic, *Women as Wartime Rapists* offers important insights into not only the topic of female perpetrators of wartime sexual violence but to larger notions of gender and violence with crucial cultural, legal and political implications.

Experience and Expression Elizabeth Roberts Baer, Myrna Goldenberg, 2003 Publisher's description: The many powerful accounts of the Holocaust have given rise to women's voices and yet few researchers have analyzed these perspectives to learn what the horrifying events meant for women in particular and how they related to them. In *Experience and Expression* the authors take on this challenge, providing the first book-length gendered analysis of women and the Holocaust, a topic that is emerging as a new field of inquiry in its own right. The collection explores an array of fascinating topics: rescue and resistance, the treatment of Roma and Sinti women, the fate of female forced laborers, Holocaust politics, nurses at so-called euthanasia centers, women's experiences of food and hunger in the camps, the uses and abuses of Anne Frank and the representations of the Holocaust in art, film and literature in the postwar era.
