Covering the needs of each age and stage of life, this book discusses care of the individual, family, and community, all based on the latest research and trends in Canadian health promotion. New chapters address the timely topics of Indigenous health and 2SLGBTQI health. Written by respected Canadian educators Marian Luctkar Flude, Shannon Dames, and Jane Tyerman, this book is the only Canadian nursing health promotion text on the market.

Enhancing Client, Family, and Community Health Management: Self, Society, State, Systems, and Spirituality Qidwai, Minhaj A., 2025-07-02

Effective health management goes beyond individual care to encompass the well-being of families, communities, and broader societal systems. As healthcare systems evolve, a holistic approach that integrates the perspectives of self, society, and state becomes vital for improving health outcomes. This approach emphasizes the interconnectedness of individual health, family support, community resources, and the role of governmental and organizational frameworks in promoting public health. Internalization of these four aspects are essential to find the essence and meaning of client, family, and community management. This brings the fifth aspect of 5Ss: the Spirituality. By focusing on the collaboration between these five pillars—self, society, state, systems, and spirituality—health management strategies can be more comprehensive, accessible, and sustainable. Further exploration into how enhanced health management can create resilient and equitable health outcomes for clients, families, and communities may foster a more proactive approach to healthcare.

Enhancing Client, Family, and Community Health Management: Self, Society, State, Systems, and Spirituality explores the integration of social, governmental, systemic, and personal practices into healthcare management. It examines concepts that challenge conventional healthcare management applications and presents new skills to address clinical and societal healthcare challenges. This book covers topics such as government and law, healthcare systems, and sociology, and is a useful resource for government workers, sociologists, business owners, healthcare managers, academicians, scientists, and researchers.
