Thornes, John Constable, 1999-01-01 John Constable is arguably the most accomplished painter of English skies and weather of all time For Constable the sky was the keynote the standard of scale and the chief organ of sentiment in a landscape painting But how far did he understand the workings of the forces of nature which created his favourite cumulus clouds portrayed in so many of his skies over the landscapes of Hampstead Heath Salisbury and Suffolk And were the skies he painted scientifically accurate

In this lucid and accessible study John Thornes provides a meteorological framework for reading the skies of landscape art compares Constable's skies to those produced by other artists from the middle ages to the nineteenth century analyses Constable's own meteorological understanding and examines the development of his painted skies In so doing he provides fresh evidence to identify the year of painting of some of Constable's previously undated cloud studies How to Paint Abstract Sunsets Gina De Gorna, 2011 No previous painting experience is required A list of all necessary materials is included along with detailed step by step instructions and plenty of painting tips and beautiful samples Page 4 of cover **Doctors and Paintings** John Middleton, Erica Middleton, 2018-08-11 This work includes forewords by Sir Liam Donaldson and Peter Wheeler Chief Medical Officer Department of Health Dean College of Fine Arts University of Sharjah United Arab Emirates Appreciating art can help doctors build empathy with patients and reduce stress By stimulating thought and reflection through paintings this concise and engaging text invites readers to examine their motivation their profession and their world This exciting new book provides vital refreshment for doctors and medical students lecturers and tutors in medical humanities and healthcare professionals with mentoring roles John and Erica Middleton guide the reader gently along the interface between art and medicine in their own inimitable style Whether in search of an introduction to the world of art or wishing to consider the role that the formal study of art might play in professional development reading this book is likely to prove rewarding Turning these pages will help doctors to appreciate afresh the window through which they look upon the world Sir Liam Donaldson in his Foreword Great art provides insights into the human condition If through a systematic engagement with art and literature as an extension of their medical practice GPs can apply those insights to themselves know thyself they can equally apply them when dealing with patients Doctors and patients are people subjects Intersubjectivity is perhaps a better word than empathy to define what this book seeks to promote the capacity of the doctor to enter into and inhabit the patient's subjectivity Peter Wheeler in his Foreword *The Collected Works of George Moore: Modern painting* George Moore, 1923 **Modern painting** George Moore, 1923 Modern painting. 1923 George Moore, 1923 **Carlson's Guide to Landscape Painting** John F. solar scientists from Stonehenge to Antarctica site of the solar eclipse of 2003 when penguins were said to sing Mexico's Aztecs to the Norwegian city of Tromsø where for two months of the year there is no Sun at all He introduces us to the crucial sunspot cycle in modern economics the religious dances of Indian tribesmen the histories of sundials and calendars the plight of migrating birds the latest theories of global warming and Galileo recording his discoveries in code for fear of persecution And throughout there is the rich Sun literature from the writings of Homer through Dante and Nietzsche to Keats Shelley and beyond Blindingly impressive and hugely readable this is a tour de force of narrative non fiction The Dancer II Dale Stubbart, In the second story in this series Dancer a Chief a Shaman a God who is a horse and Dancer's other close friends must heal the holes that have developed between the worlds These holes have developed because Dancer and her friends opened them by using their magic Of course their magic alone wasn't enough to open these holes Their magic had acted on their desires their desires for things to be different Once the holes were opened Dancer and her friends continued to use them which made the holes larger But now people are falling through who have no magic to fall back through the other way People are falling through unintentionally And somehow that had to stop This story is told from Jamil the Artist's perspective So I thought it appropriate to include a short story about another artist at the end It's titled The Artist Creative I know This artist has always wanted to be an artist but has to give up his dream because he can't make enough money at it and because it's not an accepted profession Eventually he does become an artist However there's one thing he cannot paint a sunset And he won't be able to paint a sunset until he understands the beauty behind a sunset
