Maapola-Thobejane, Hlabathi Rebecca, Maguvhe, Mbulaheni Obert, 2023-10-16 Children living with disabilities face hardships of many kinds that make it impossible for them to access quality education in the same way as their peers in the schooling system. All children are entitled to quality education and a supportive school environment that allows them to develop to their full potential irrespective of their disabilities. However, different factors make it difficult for many learners who live with disabilities to access, participate and succeed in the schooling system. The Handbook of Research on Shifting Paradigms of Disabilities in the Schooling System focuses on the global trends in education that require the total eradication of every form of impediment in the process of accessing quality education and lifelong learning for people living with disabilities. Rooted in the philosophy of equal rights, human dignity and social justice, access to quality education for all has led to the current drive for inclusive education. Covering topics such as inclusive schooling systems, visual impairments and emotional disabilities, this major reference work is an essential resource for students and faculty of higher education, administrators of both K-12 and higher education, government officials, policymakers, non-profit organizations, researchers and academicians.
