Tsotsil Maya elder curer singer and artist Maruch Méndez Pérez began learning about birds as a young shepherdess climbing trees and raiding nests for eggs to satisfy her endless hunger As she grew into womanhood and apprenticed herself to older women as a curer and seer the natural history of birds she learned so roughly as a child expanded to include ancestral Maya beliefs about birds as channels of communication with deities in the spirit world who had dominion over human lives In these testimonies dictated to her lifelong friend anthropologist Diane Rus Méndez Pérez describes her years of dreams instruction and experience Her narrative sheds light on the basic values of her Chamula culture and cosmovision and has remarkable parallels to concepts of the ancient Maya as interpreted by scholars

The Sacred Body Nicola Laneri, 2021-06-09 The human body serves as a symbolic bridge between communities of the living and the divine This is clearly evident in mythological stories that recount the creation of humans by deities within ancient and contemporaneous societies across a very broad geographical environment In certain circumstances parts of selected humans can become an ideal proxy for connecting with the supernatural as demonstrated by the cult of human skulls in Near Eastern Neolithic communities as well as the cult of relics of Christian saints from the early Christian era To go deeper into this topic this volume aims to undertake a cross cultural investigation of the role played by both humans and human remains in creating forms of relationality with the divine in antiquity Such an approach will highlight how the human body can be envisioned as part of a broader materialization of religious beliefs that is based on connecting different realms of materiality in the perception of the supernatural by communities of the living

Death and the Classic Maya Kings James L. Fitzsimmons, 2010-01-01 Like their regal counterparts in societies around the globe ancient Maya rulers departed this world with elaborate burial ceremonies and lavish grave goods which often included ceramics red pigments earflares stingray spines jades pearls obsidian blades and mosaics Archaeological investigation of these burials as well as the decipherment of inscriptions that record Maya rulers funerary rites have opened a fascinating window on how the ancient Maya envisaged the ruler's passage from the world of the living to the realm of the ancestors Focusing on the Classic Period AD 250-900 James Fitzsimmons examines and compares textual and archaeological evidence for rites of death and burial in the Maya lowlands from which he creates models of royal Maya funerary behavior Exploring ancient Maya attitudes toward death expressed at well known sites such as Tikal Guatemala and Copan Honduras as well as less explored archaeological locations Fitzsimmons reconstructs royal mortuary rites and expands our understanding of key Maya concepts including the afterlife and ancestor veneration
