Kliatt Young Adult Paperback Book Guide, 1998 *The Historians' History of the World Vol.1 (of 25) (Illustrations)* Henry Smith Williams, A complete world history should properly speaking begin with the creation of the world as man's habitat and should trace every step of human progress from the time when man first appeared on the globe Unfortunately the knowledge of today does not permit us to follow this theoretical obligation We now know that the gaps in the history of human evolution as accessible to us today vastly exceed the recorded chapters that in short the period with which history proper has at present to content itself is a mere moment in comparison with the vast reaches of time which in recognition of our ignorance we term prehistoric But this recognition of limitations of our knowledge is a quite recent growth no older indeed than a half century Prior to 1859 the people of Christendom rested secure in the supposition that the chronology of man's history was fully known from the very year of his creation One has but to turn to the first chapter of Genesis to find in the margin the date 4004 B C recorded with all confidence as the year of man's first appearance on the globe One finds there too a brief but comprehensive account of the manner of his appearance as well as of the creation of the earth itself his abiding place Until about half a century ago as has just been said the peoples of our portion of the globe rested secure in the supposition that this record and this date were a part of our definite knowledge of man's history Therefore one finds the writers of general histories of the earlier days of the nineteenth century beginning their accounts with the creation of man B C 4004 and coming on down to date with a full and seemingly secure chronology Our knowledge of the world and of man's

history has come on by leaps and bounds since then with the curious result that to day no one thinks of making any reference to the exact date of the beginnings of human history unless indeed it be to remark that it probably reaches back some hundreds of thousands of years The historian can speak of dates anterior to 4004 B C to be sure The Egyptologist is disposed to date the building of the Pyramids a full thousand years earlier than that And the Assyriologist is learning to speak of the state of civilisation in Chaldea some 6000 or 7000 years B C with a certain measure of confidence But he no longer thinks of these dates as standing anywhere near the beginning of history He knows that man in that age in the centres of progress had attained a high stage of civilisation and he feels sure that there were some thousands of centuries of earlier time during which man was slowly climbing through savagery and barbarism of which we have only the most fragmentary record He does not pretend to know anything except by inference of the dawns of civilisation Whichever way he turns in the centres of progress such as China Egypt Chaldea India he finds the earliest accessible records covering at best a period of only eight or ten thousand years giving evidence of a civilisation already far advanced Of the exact origin of any one of the civilisations with which he deals he knows absolutely nothing The Creation of Man with its fixed chronology is a chapter that has vanished from our modern histories To be continue in this ebook *The Publishers Weekly* ,1997 **Ramses - Son of the Light** Random House,1997-06-01 *The Temple of Ramesses II in Abydos* Ogden Goelet,Sameh Iskander,2022-04-12 Of all the enormous monuments throughout Egypt and Nubia that Ramesses II the Great ca 1279 1212 BCE left behind his temple at Abydos built early in his reign stands as one of his most elegant with its simple architectural layout and dramatic and graceful painted relief scenes Though best known for its dramatic reliefs depicting the battle of Kadesh the temple also offers a wealth of information about religious and social life in ancient Egypt It reflects for example the strenuous efforts of the early Ramessides to reestablish the Osiris cult in Egypt and particularly at Abydos in the aftermath of the Amarna period Building on the comprehensive photographic and epigraphic documentation of the temple presented in *The Temple of Ramesses II at Abydos* volumes 1 Wall Scenes and 2 Pillars Niches and Miscellanea volume 3 Architectural and Inscriptional Features offers a detailed analysis of the overall architectural layout and decorative program of the temple and its symbolism This discussion approaches the religious history of the site through its archaeology its inscriptions both planned and secondary graffiti and its situation in the complex religious landscape of Abydos Of particular interest are the temple s role as a staging point for the great Osiris Festival and its procession among the most important of all ritual events in the Egyptian religious calendar during the Ramesside period the promotion of an active unbound form of Osiris and the evidence for important cult activities that took place on the rooftop of the temple the presence of which is documented today by the staircase that accessed it from Court B **The Mummy! A Tale of the Twenty-Second Century** Jane Webb,2022-04-05 *Frankenstein* wasn t the only classic horror novel created by a woman Within a decade of the 1818 publication of Mary Shelley s *Frankenstein* another Englishwoman invented a foundational work of science fiction Seventeen year old Jane Webb
