Random Journey Selections From The Noteb:

Random Journey Gordon Wallace, 1978-08-01 *Malcolm Lowry's "La Mordida"* Malcolm Lowry, 1996 Although Malcolm Lowry 1909 1957 published only two novels *Ulamarine* and *Under the Volcano* in his lifetime numerous other works most of which have since been edited for publication were in various stages of composition at his death *La Mordida* the longest and most significant of the manuscripts that have not been previously published is a draft of a novel based on Lowry's visit to Mexico in 1945 46 which ended in the arrest and deportation of Lowry and his wife following a nightmarish run in with corrupt immigration authorities On its most immediate level the title *La Mordida* which means the little bite Mexican slang for the small bribe that officials are apt to demand in order to expedite matters refers to the autobiographical protagonist's legal difficulties In a larger sense however it also represents his inability to escape his past to repay the fine or debt that he owes The central narrative of *La Mordida* involves a descent into the abyss of self culminating in the protagonist's symbolic rebirth at the book's end Lowry planned to use this basic narrative pattern as the springboard for innumerable questions about such concerns as art identity the nature of existence political issues and alcoholism Above all *La Mordida* was to have been a metafictional work about an author who sees no point in living events if he cannot write about them and who is not only unable to write but suspects that he is just a character in a novel A reading of *La Mordida* in the context of Lowry's aesthetic theories and psychological problems shows why he dreaded the completion of his projects to such an extent that he called success a horrible disaster and compared death to the accepted manuscript of one's life The reason *La Mordida* makes clear lies partly in the aesthetic theories that led Lowry to attempt a book that he prophetically called something never dreamed of before a work of art so beyond conception it could not be written Patrick A McCarthy's edition of *La Mordida* is based on materials held in the Malcolm Lowry Archive at the University of British Columbia Its publication provides essential evidence for a balanced assessment of Lowry's creative processes and his achievement as a writer **The Children's Literature Selection Handbook, K-8** Christie Kaaland, 2025-08-21 Offering future school librarians teachers and working librarians an alternative to lengthier textbooks on children's literature this engaging book introduces readers to the most important genres and current conversations in the field while leaving them time to read children's literature directly As school librarian and teacher certification programs become more abridged students require succinct textbooks that still provide a valuable introduction to the field Working librarians need reference books that allow them to make good selections for their collections Students and professionals will appreciate *The Children's Literature Selection Handbook K 8* because it offers a needed overview of the field while allowing for plenty of time to read children's literature Author Christie Kaaland's conversational tone speaks directly to readers and the book offers students a pathway to engage with literature directly and effectively scaffold their learning Beginning with an introduction to standard literary fiction genres including a discussion of literature trends and children's reading interests and needs the chapters turn to the most important genres fiction biography

folk literature picture books informational texts poetry and graphic novels A focus on book series a deep discussion of graphic novels the inclusion of global literature and review sources for selection and information on publishers and the publishing industry set this timely book apart from others in the field Reader voices add perspective and charm This compact and engaging book is the perfect companion to the vast wealth of children s literature that future teachers and school librarians will read during their professional preparation and share with children and youth as working librarians

The Notebooks of Malte Laurids Brigge Rainer Maria Rilke,2009-06-04 While his old furniture rots in storage Malte Laurids Brigge lives in a cheap room in Paris with little but a library reader s card to distinguish him from the city s untouchables Every person he sees seems to carry their death with them and he thinks of the deaths and ghosts of his aristocratic family of which only he remains The only novel by one of the greatest writers of poetry in German the semi autobiographical Notebooks is an uneasy compelling and poetic book that anticipated Sartre and is full of passages of lyrical brilliance Michael Hulse s new translation perfectly conveys the unsettling beauty of the original and is accompanied by an introduction on Rilke s life and the biographical and literary influences on the Notebooks This edition also includes suggested further reading a chronology and notes

The Stolen Notebooks SUSAN AUDREY GRUNDY,2019-09-29 Art Historian Susan Grundy delves into reasons biographers assume a Tuscan painter Leonardo da Vinci wrote the Notebooks It was only in the nineteenth century that European scholars began to access these Notebooks in more depth transcribing the arcane backwards Italian and translating them into English Yet they discovered a man who did not seem to be Tuscan Leonardo da Vinci as he seemed to be a man from the East Yet this reality was closed down by researchers who seemed determined to continue with the myth of the self educated genius from a farm in Tuscany

Circle with No Centre Deepak khurana,2025-05-06 Is life a circle with no single center It was a restless spin for him from brief romances to a safe but hollow job to a quiet longing for genuine purpose For her it meant heartbreak then fierce independence and finally a passion that lit her every step Each believed they would keep circling alone But when their paths unexpectedly overlap they discover a new space an unplanned center neither saw coming Within that gentle overlap old fears soften and dormant dreams spark to life Yet real closeness challenges everything they thought they knew how to protect themselves how to trust Can two people each
