Through the analysis of large collections of verses and individual tracks the book addresses theories of rhythm meter and groove in the unique ecology of rap music In a series of case studies in the second half the work of Eminem clarifies how flow can relate to text the work of Black Thought of The Roots clarifies how flow can relate to other instrumental streams and the work of Talib Kweli clarifies how flow can relate to rap s persistent meter While Ohriner focuses on rap music throughout the book the methods he introduces will be useful for other musical genres that feature the voice freely interacting with a more rigid metric framework

Constructing a Hip Hop Spirituality edited by Andre Johnson is a collection of essays that examine the religious and spiritual in hip hop The contributors argue that the prevailing narrative that hip hop offers nothing in the way of religion and spirituality is false From its beginning hip hop has had a profound spirituality and advocates religious views and while not orthodox or systemic nevertheless many in traditional orthodox religions would find the theological and spiritual underpinnings in hip hop comforting empowering and liberating In addition this volume demonstrates how scholars in different disciplines approach the study of hip hop religion and spirituality Whether it is a close reading of a hip hop text ethnography a critical studies approach or even a mixed method approach this study is a pedagogical tool for students and scholars in various disciplines to use and appropriate for their own research and understanding Urban God Talk will inspire not only scholars to further their research but will also encourage publishers to print more in this field The contributors to this in depth study show how this subject is an underrepresented area within hip hop studies and that the field is broad enough for numerous monographs edited works and journal publications in the future      *All Music Guide to Rock* Vladimir Bogdanov,Chris Woodstra,Stephen Thomas Erlewine,2002-04 This fun to read easy to use reference has been completely updated expanded and revised with reviews of over 12 000 great albums by over 2 000 artists and groups in all rock genres 50 charts      African American Music Mellonee V.
