Rudyard Kipling Son Of Empire:

Rudyard Kipling Nella Braddy,1944 **Son of Empire** Nella Braddy,1945 **Empire's Son, Empire's Orphan** Nile Green,2024-07-02 A rollicking story of two literary fabulists who revealed the West's obsession with a fabricated exotic East. In the highbrow literary circles of the mid twentieth century a father and son spread seductive accounts of a mystical Middle East. Claiming to come from Afghanistan Iqbal and Idries Shah parlayed their assumed identities into careers full of drama and celebrity writing dozens of books that influenced the political and cultural elite. Pitching themselves as the authentic voice of the Muslim world they penned picaresque travelogues and exotic potboilers alongside weighty tomes on Islam and politics. Above all father and son told Western readers what they wanted to hear: audacious yarns of eastern adventure and harmless Sufi mystics' myths that as the century wore on and the Taliban seized power became increasingly detached from reality. *Empire's Son* *Empire's Orphan* follows the Shahs from their origins in colonial India to literary London, wartime Oxford and counterculture California via the Levant, the League of Nations and Latin America. Nile Green unravels the conspiracies and pseudonyms, fantastical pasts and self-aggrandizing anecdotes, high stakes and bold schemes that for nearly a century painted the defining portrait of Afghanistan. Iqbal and Idries convinced poets, spies, orientalists, diplomats, occultists, hippies and even a prime minister that they held the key to understanding the Islamic world. From George Orwell directing Muslim propaganda to Robert Graves translating a fake manuscript of Omar Khayyam and Doris Lessing supporting jihad, Green tells the fascinating tale of how the book world was beguiled by the dream of an Afghan Shangri-La that never existed. Gambling with the currency of cultural authenticity, Iqbal and Idries became master players of the great game of empire and its aftermath. Part detective story, part intellectual folly, *Empire's Son* *Empire's Orphan* reveals the divergence between representation and reality between what we want to believe and the more complex truth. **Rudyard Kipling, son of empire** Mrs. Nella (Braddy) Henney,1941 *Son of Empire. The Story of Rudyard Kipling ... Illustrated by Heade* Nella BRADDY,1945 **The Kipling Journal; the Organ of the Kipling Society**,1946 Includes lists of members of the Kipling society *The Kipling Journal*,1947 **Rudyard Kipling's Men and Machines** Eddie Crooks,2013-03-20 Kipling wrote many poems about the life and times of men of action towards the end of the 19th century. He also was fascinated by the developing technology of machines. His masterly command of words illustrated in selected extracts in this book are as relevant today as when first written. **A Broken Heart Still Beats** Anne McCracken,Mary Semel,2000-09-01 *A Broken Heart Still Beats* Softcover *Visions of Empire* Krishan Kumar,2019-08-06 In this extraordinary volume Krishan Kumar provides us with a brilliant tour of some of history's most important empires, demonstrating the critical importance of imperial ideas and ideologies for understanding their modalities of rule and the conflicts that beset them. In doing so he interrogates the contested terrain between nationalism and empire and the legacies that empires leave behind. Mark R. Beissinger Princeton University. This is an excellent book with original insights into the history of empires and the discourses

and rhetoric of their rulers and defenders Kumar's writing is lively and free of jargon and his research is prodigious. He manages to bring clarity and perspective to a complex subject. Ronald Grigor Suny, author of *They Can Live in the Desert but Nowhere Else: A History of the Armenian Genocide*, a masterly piece of work. Anthony Pagden, author of *The Burdens of Empire 1539 to the Present*. ***Empires of the Senses*** Andrew J. Rotter, 2019-06-21. When encountering unfamiliar environments in India and the Philippines, the British and the Americans wrote extensively about the first taste of mango and meat spiced with cumin, the smell of excrement and coconut oil, the feel of humidity and rough cloth against skin, the sound of bells and insects, and the appearance of dark-skinned natives and lepers. So too did the colonial subjects they encountered perceive the agents of empire through their senses and their skins. Empire, of course, involved economics, geopolitics, violence, a desire for order and greatness, a craving for excitement and adventure. It also involved an encounter between authorities and subjects, an everyday process of social interaction, political negotiation, policing, schooling, and healing. While these all concerned what people thought about each other, perceptions of others, as Andrew Rotter shows, were also formed through seeing, hearing, touching, smelling, and tasting. In this book, Rotter offers a sensory history of the British in India from the formal imposition of their rule to its end, 1857-1947, and the Americans in the Philippines from annexation to independence, 1898-1946. The British and the Americans saw themselves as the civilizers of what they judged backward societies, and they believed that a vital part of the civilizing process was to properly prioritize the senses and to ensure them against offense or affront. Societies that looked shabby, were noisy and smelly, felt wrong, and consumed unwholesome food in unmannerly ways were unfit for self-government. It was the duty of allegedly more sensorily advanced Anglo-Americans to educate them before formally withdrawing their power. Indians and Filipinos had different ideas of what constituted sensory civilization, and to some extent resisted imperial efforts to impose their own versions. What eventually emerged were compromises between these nations' sensory regimes. A fascinating and original comparative work, *Empires of the Senses* offers new perspectives on imperial history. ***The Bookman***, 1897. ***Encyclopedia of the Literature of Empire*** Mary Ellen Snodgrass, 2010. Examines the world's greatest literature about empires and imperialism, including more than 200 entries on writers, classic works, themes, and concepts. ***Unacknowledged Legislation*** Christopher Hitchens, 2002. Hitchens provides rich evidence that his own sallies as a political journalist are nourished by a close engagement with a broad sweep of novelists. *The Road Home* Max Arthur, 2014-04-17. How the men and women of Britain found the road home after the Great War. From the SUNDAY TIMES bestselling author of *THE LOST POST*. 11am 11.11.1918: the war is finally over. After four long years, Britain welcomed her heroes home. Wives and mothers were reunited with loved ones they'd feared they'd never see again. Fathers met sons and daughters born during the war years for the very first time. It was a time of great joy, but it was also a time of enormous change. The soldiers and nurses who survived life at the Front faced the reality of rebuilding their lives in a society that had changed beyond recognition. How did the veterans readjust to civilian life? How did they cope with their war wounds?

work and memories of lost comrades And what of the people they returned to the independent young women who were asked to give up the work they had been enjoying the wives who had to readjust to life with men who seemed like strangers The Spectator ,1898 **1913** Charles Emmerson,2013-05-28 Liberating the world of 1913 from a prelude to war narrative and exploring it as it was this fascinating volume filled with stories insights and colorful characters brings to life a world more integrated and internationalized than we remember *Empires of Print* Patrick Scott Belk,2017-05-08 At the turn of the twentieth century the publishing industries in Britain and the United States underwent dramatic expansions and reorganization that brought about an increased traffic in books and periodicals around the world Focusing on adventure fiction published from 1899 to 1919 Patrick Scott Belk looks at authors such as Joseph Conrad H G Wells Conan Doyle and John Buchan to explore how writers of popular fiction engaged with foreign markets and readers through periodical publishing Belk argues that popular fiction particularly the adventure genre developed in ways that directly correlate with authors experiences and shows that popular genres of the late nineteenth and early twentieth centuries emerged as one way of marketing their literary works to expanding audiences of readers worldwide Despite an over determined print space altered by the rise of new kinds of consumers and transformations of accepted habits of reading publishing and writing the changes in British and American publishing at the turn of the twentieth century inspired an exciting new period of literary invention and experimentation in the adventure genre and the greater part of that invention and experimentation was happening in the magazines **Orwell and Empire** Douglas Kerr,2022-06-16 Considers George Orwell s writing about the East and the presence of the East in his writing George Orwell was born in India and served in the Imperial Police in Burma as a young man Orwell and Empire is a study of his writing about the East and the East in his writing It argues that empire was central to his cultural identity and that his experience of colonial life was a crucial factor in ways that have not been recognized in shaping the writer he became Orwell and Empire is about all his writings fictional and non fictional It pays particular attention to work that derives directly from his Burmese years including the well known narratives A Hanging and Shooting an Elephant and his first novel Burmese Days It goes on to explore the theme of empire throughout his work through to Nineteen Eighty Four and beyond and charts the way his evolving views on class race gender and authority were shaped by his experience in the East and the Anglo Indian attitudes he had inherited Orwell s socialism and his hatred of authoritarianism grew out of his anti imperialism as The Road to Wigan Pier makes explicit But this was not a straightforward repudiation or a painless process He understood that it is very difficult to escape culturally from the class into which you have been born His whole career was a creative quarrel with himself and with his Anglo Indian patrimony In a way that anticipates current debates about the imperial legacy he struggled to come to terms with his own history *The End of Empires* Michael Gehler,Robert Rollinger,Philipp Strobl,2022-11-21 The articles of this comprehensive edited volume offer a multidisciplinary global and comparative approach to the history of empires They analyze their ends over a long

spectrum of humankind's history ranging from Ancient History through Modern Times As the main guiding question every author of this volume scrutinizes the reasons for the decline the erosion and the implosion of individual empires All contributions locate and highlight different factors that triggered or at least supported the ending or the implosion of empires This overall question makes all the contributions to this volume comparable and allows to detect similarities differences as well as inconsistencies of historical processes
