Mao Zedong, Zhou Enlai and the Evolution of the Chinese Communist Leadership Thomas Kampen, 2000 Analyses the power struggles within the leadership of the Chinese Communist Party between 1931 when several Party leaders left Shanghai and entered the Jiangxi Soviet and 1945 by which time Mao Zedong Liu Shaoqi and Zhou Enlai had emerged as senior CCP leaders In 1949 they established the People's Republic of China and ruled it for several decades Based on new Chinese sources this study challenges long established views that Mao Zedong became CCP leader during the Long March 1934-35 and that by 1935 the CCP was independent of the Comintern in Moscow The result is a critique not only of official Chinese historiography but also of Western especially US scholarship that all future histories of the rise of the CCP and power struggles within the PRC will need to take into account

The Battle For China's Past Mobo Gao,2008-02-20 Shows that the Mao era was beneficial for most Chinese citizens A powerful mixture of political passion and original research a brave polemic against the fashionable view on China Aims a knockout blow at Jung Chang s recent book on Mao which Bush and the conservatives rave reviewed Gregor Benton Professor of Chinese History University of Cardiff This important book opens a much needed window onto Chinese perceptions of the country s post Mao direction Highlights the renewal of popular support for socialism and the growing opposition to contemporary state policies Martin Hart Landsberg Professor of Economics Lewis Clark College Portland Oregon Mao and his policies have long been demonised in the West with the Cultural Revolution considered a fundamental violation of human rights As China embraces capitalism the Mao era is being surgically denigrated by the Chinese political and intellectual elite This book tackles the extremely negative depiction of China under Mao in recent publications and argues most people in China including the rural poor and the urban working class actually benefited from Mao s policy of a comprehensive welfare system for the urban and basic health and education provision for the rural which is being reversed in the current rush towards capitalism By a critical analysis of the mainstream account of the Mao era and the Cultural Revolution and by revealing what is offered in the unofficial e media debates this book sets the record straight making a convincing argument for the positive effects of Mao s policies on the well being of the Chinese people
