**Papers Dedicated to Joan S. Birman** Jane Gilman,2001 There are a number of specialties in low dimensional topology that can find in their family tree a common ancestry in the theory of surface mappings These include knot theory as studied through the use of braid representations and 3 manifolds as studied through the use of Heegaard splittings The study of the surface mapping class group the modular group is of course a rich subject in its own right with relations to many different fields of mathematics and theoretical physics However its most direct and remarkable manifestation is probably in the vast area of low dimensional topology Although the scene of this area has been changed dramatically and experienced significant

expansion since the original publication of Professor Joan Birman's seminal work *Braids Links and Mapping Class Groups* Princeton University Press she brought together mathematicians whose research span many specialties all of common lineage The topics covered are quite diverse Yet they reflect well the aim and spirit of the conference to explore how these various specialties in low dimensional topology have diverged in the past 20-25 years as well as to explore common threads and potential future directions of development This volume is dedicated to Joan Birman by her colleagues with deep admiration and appreciation of her contribution to low dimensional topology *Britannica Book of the Year 2010* Encyclopaedia Britannica, Inc., 2010-03-01 The Britannica Book of the Year 2010 provides a valuable viewpoint of the people and events that shaped the year and serves as a great reference source for the latest news on the ever changing populations governments and economies throughout the world It is an accurate and comprehensive reference that you will reach for again and again General Knowledge 2022 Team Prabhat, 2021-01-19 Expand Your Horizons with General Knowledge 2022 by Team Prabhat Embark on a journey of discovery with General Knowledge 2022 by Team Prabhat a comprehensive and engaging guide to the world around us Packed with fascinating facts insightful analysis and thought provoking trivia this book is your passport to expanding your horizons and enhancing your understanding of the world Explore Diverse Topics From history and geography to science technology and current affairs General Knowledge 2022 covers a wide range of subjects to satisfy your curiosity and stimulate your intellect Whether you're interested in ancient civilizations space exploration or the latest breakthroughs in medicine you'll find something to captivate your interest within these pages Stay Informed Keep up to date with the latest developments and trends shaping our world today With insightful analysis and up to the minute information on key events and issues General Knowledge 2022 equips you with the knowledge you need to stay informed and engaged in an ever changing world Test Your Knowledge Challenge yourself with quizzes trivia questions and brain teasers designed to test your recall and expand your understanding Whether you're studying for an exam participating in a quiz night or simply seeking to sharpen your mental acuity General Knowledge 2022 provides ample opportunities for learning and growth Gain Valuable Insights Delve into in depth articles and analyses that provide valuable insights into key topics and issues From geopolitical conflicts and environmental challenges to scientific discoveries and cultural phenomena General Knowledge 2022 offers a wealth of information to deepen your understanding and broaden your perspective Enhance Your Skills Develop essential skills such as critical thinking problem solving and information literacy as you engage with the rich content of General Knowledge 2022 With its focus on inquiry based learning and independent thinking this book empowers you to become a more informed discerning and intellectually curious individual Join a Community of Learners Connect with fellow readers and enthusiasts as you explore the fascinating world of knowledge together Whether you're discussing the latest scientific breakthroughs debating historical events or sharing insights on current affairs General Knowledge 2022 brings people together in a spirit of intellectual curiosity and camaraderie With its engaging writing style
