Teaching and Learning Geography Daniella Tilbury, Michael Williams, 2002-11 This book provides a clear overview of current thinking on the teaching and learning of geography It is ideal for anyone beginning a career in teaching the subject in schools The chapters are written by experienced teachers

The Making of Geography as a Secondary School Subject John Mortimer, Tom O'Donoghue, 2021-06-02 No work has ever been produced previously that shows how historically geography has been constructed as a subject for the senior years of secondary schooling in Western Australia from 1917 to 1997 In doing so this book contributes to the existing corpus of international research on the history of curriculum and particularly the history of geography as a senior secondary school subject Much of it is based on primary sources including the textbooks and atlases used along with syllabus manuals and geography examination papers It also provides a framework for investigating the construction of senior secondary school geography curricula in other constituencies and could act as a model for engaging in further research in curriculum history for other school subjects state wide nationally and internationally The book also makes an important contribution to the fields of curriculum design curriculum development and curriculum innovation It will be of great interest to historians of education comparative educationists education leaders policy makers and librarians

Reflective Practice in Geography Teaching Ashley Kent, William Ashley Kent, 2000 This book provides a comprehensive overview of contemporary thought and practice in

teaching geography It is designed to support continuing professional development and reflective practice in geography education by encouraging a critical understanding of the literature and concepts stimulating teachers to continue with personal and professional development and providing professionally relevant knowledge understanding skills and values Drawn from a wide range of eminent geographers and experienced practitioners the authors cover progress in geography changing viewpoints the geography curriculum development planning and issues research and geography teaching why and how research matters Thi Learning to Teach Geography in the Secondary School David Lambert, David Balderstone, 2012-08-21 Learning to Teach Geography in the Secondary School has become the widely recommended textbook for student and new teachers of geography It helps them acquire a deeper understanding of the role purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design teach and evaluate stimulating and creative lessons This fully revised and updated second edition takes account of new legislation and important developments in geography education including literacy numeracy citizenship and GIS Brand new chapters in this edition provide essential guidance on fieldwork and using ICT in the context of geography teaching and learning Chapters on teaching strategies learning styles and assessment place the learner at the centre stage and direct advice and activities encourage successful practice Designed for use as a core textbook Learning to Teach Geography in the Secondary School is essential reading for all student teachers of geography who aspire to become effective reflective teachers Praise for the first edition of Learning to Teach Geography in the Secondary School This is a practical and visionary book as well as being superbly optimistic It has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere Practical activities and ideas are set within a carefully worked out authoritative conceptual framework The Times Educational Supplement This is a modern powerful relevant and comprehensive work that is likely to become a standard reference for many beginning teachers on geography initial teacher training courses in England and Wales Educational Review *British Book News* ,1990 Global Perspectives in the Geography Curriculum Alex Standish, 2008-10-07 For geographers across the globe this book provides the arguments for a return to the teaching of geography and why they should reject the politicisation of the subject by education policy makers and politicians Standish s careful critique shows the necessity of a depoliticised geography curriculum the irony of which would be that it would ensure that every child could point to Iraq Iran and Afghanistan on a map Prof Dennis Hayes Oxford Brookes University UK A prescient and critical analysis of the changing face of geography teaching This book deserves to be widely read and debated Alex Standish s book puts current trends in geography teaching in historical and critical context It comprises a forthright and timely defence of geographical education for its own sake Dr Jim Butcher FRSA Department of Sport Science Tourism and Leisure Canterbury Christ Church University Since the early 1990s educational policy makers and some subject leaders have been seeking to fundamentally change the teaching of geography in UK and US schools from a subject which encourages

students to explore spatial concepts ideas and skills to a more ethics based subject concerned with the promotion of environmentalism cultural diversity and social justice In this book the new approach is critically examined within a historical and ideological context addressing a number of fundamental questions Should geography be used as a tool for the delivery of citizenship ideals How does this affect the intellectual and moral value of geographical education for young people If the state and teachers are taking more responsibility for the values attitudes and emotional responses of students how will they learn to develop these qualities for themselves If global perspectives shift the focus of education from learning about the outside world to learning about the self what is its vision of social progress and conception of social change This book advocates a return to liberal models of education arguing that the new approach to geography currently being promoted for schools fundamentally undermines the educational value of the subject and the freedom of young people to shape the world in which they live A vital resource for teachers and student teachers alike Global Perspectives in the Geography Curriculum makes a significant contribution to the growing debate about the future direction of the discipline itself
