Schieffelin,Robert Crittenden,1991 This book is at once a detailed ethnographic and historical analysis of one of the final modern day experiences of first culture contact a classic example of historical geography and an extraordinary tale of exploration imperialist arrogance blood shed suffering courage and near disaster By the 1930 s the interior of the island of New Guinea protected from outside penetration over the centuries by its rugged mountains and unruly rivers remained one of the few places outsiders had never seen In early January of 1935 the Papuan colonial administration dispatched patrol officers including 40 Papuan carriers and police to explore the vast

unknown country between the Strickland and Purari rivers The expedition moved inland along the river systems by steam launch and canoe until in mid February they abandoned their boats and proceeded on foot through the tropical forest and into the mountains Along the way the party encountered hitherto unsuspected populations peoples of six tribes numbering in the tens of thousands who had never before seen white men and who were still using Stone Age tools

North American Exploration John Logan Allen,1997-01-01 The third volume of North American Exploration covering 1784 to 1914 charts a dramatic shift in the purpose priorities and results of the exploration of North America As the nineteenth century opened exploration was still fostered by the growth of empire but by the 1830s commercial interests came to drive most exploratory ventures particularly through the fur trade By midcentury however as imperial rivalries lessened and the fur trade declined exploration was driven by the growing scientific spirit of the age although the science was often conducted in the service of a search for railroad routes or natural resources linked to military concerns A clear transition took place as the spirit of the Enlightenment gave way to economic imperatives and to the science of the post Darwinian age and exploration passed beyond discovery and geographical definition This volume explores the resultant beginnings of an understanding of the continent and its native peoples
