Look Out by Water Helena Ramsay, 2003 Look Out by Water is a no nonsense book with a strong safety message for young children about how they should avoid potentially dangerous situations near water The narrative throughout is in simple straightforward language which is undramatic and reassuring whilst stressing the dangers that seemingly familiar situations can hold for children A mixture of running narrative and speech bubbles has been specially developed in association with the National Centre for Language and Literacy Reading Reading Centre to draw in both confident and less able readers Specially commissioned photographs are combined with child centred artwork to support the text and re iterate the safety message

Of Prairie, Woods, and Water Joel Greenberg, 2008-05 In the literary imagination Chicago evokes images of industry and unbridled urban growth But the tallgrass prairie and deep forests that once made up Chicago s landscape also inspired musings from residents and visitors alike In Of Prairie Woods and Water naturalist Joel Greenberg gathers these unique voices from the land to present an unexpected portrait of Chicago in this often charming sometimes heart wrenching anthology of nature writing These writings tell the tale of a land in transition one with abundant unique and incredibly lush flora and fauna a natural history quite elusive today Drawing on archives he uncovered while writing his acclaimed A Natural History of the Chicago Region Greenberg hand selected these first person narratives all written between 1721 and 1959 Not every author is familiar but every contribution is distinctive From a pioneer s hilarious notes on life in the Kankakee marsh to

Theodore Drieser s poignant plea for conservation of the Tippecanoe River to infamous murderer Nathan Leopold s charming description of a pet robin he kept in prison the sources included are as diverse as the nature they describe The excerpts conclude with insightful biographical essays and traverse a wide area of greater Chicagoland from the Illinois River to southwest Michigan from southern Wisconsin to the Limberlost swamp of northeastern Indiana A fascinating record of Chicago s changing environmental history Of Prairie Woods and Water captures the natural world in a way that will inspire its continued conservation Errata We have learned the title of a book by the Chicago ecologist and writer May Theilgaard Watts has been incorrectly rendered in the selections attributed to Mrs Watts The correct title of her book is Reading the Landscape of America Nature Study Guild Publishers see <http://naturestudy.com> This will be corrected in the next printing We very much regret the error

The Water-witch James Fenimore Cooper,1836 **Irrigation Systems** Adrian Laycock,2007-01-01 Of all the confrontations man has engineered with nature irrigation systems have had the most widespread and far reaching impact on the natural environment Over a quarter of a billion hectares of the planet are irrigated and entire countries depend on irrigation for their survival and existence Considering the importance of irrigation schemes it is unfortunate that until recently the technology and principles of design applied to their construction has hardly changed in 4 000 years Modern thinking on irrigation engineering has benefited from a cross fertilization of ideas from many other fields including social sciences control theory political economics and agriculture However these influences have been largely ignored by irrigation engineers Drawing on almost 40 years of experience of irrigation in the developing world Laycock introduces new ideas on the design of irrigation systems and combines important issues from the disciplines of social conflict management and political thinking
