subjective originator of its surroundings Harwood Fisher's purpose in this far reaching interdisciplinary book is to depict the subjective self in its true complex duality In The Subjective Self Fisher argues that the key to depicting both aspects of the self simultaneously and thus modeling it more holistically than before is to visualize the self in a logical space From an origin point inside this space the self tries out metaphors and launches categories to logically order what it wants sees and encounters. This is a creative cognitive process metaphoric framing by which the self invents new forms and depicts new organizations of its experiences impressions and information It is also a generative linguistic process bracketing by which the self can step outside its own expressed thoughts gain new levels of awareness re position itself as an agent responsible for its ideas and statements and in short empower its own identity The framing sets in motion versatile mental categories forms that are projected into mental space where they become objectified The bracketing sets in motion the logical bounds of the I stabilizing the individual s identity and giving thrust to the subjective self s dynamic causal role In elaborating this theory Fisher extends the ideas of Kurt Lewin Jean Piaget and C S Peirce among others By drawing on each of these thinkers he is able to bring their common themes of perspective and construction together in his portrait of the self as a creative iconic The Message Of A Course In Miracles Elizabeth Cronkhite, 2010-05-11 The Message of A Course in Miracles is the space first volume of a paragraph by paragraph translation of A Course in Miracles into plain everyday language which brings its loving message to the surface so that you can attain a deeper understanding of it faster It is for anyone seeking a simple and The Four Books Daniel K.
