The protagonist Michael Duarte suffers from PTSD but doesn't know it. All he knows is that he suffers from nightmares and headaches and guilt over the loss of his friend. He can't maintain a relationship with anyone for very long leading to a string of relationships. In a series of flashbacks Duarte looks back at his life.

Toss James Roberts Jr, 2011-01-27 You would think waking up from a coma would be the best thing to ever happen to someone. A love triangle changed John forever. It left him with no trust in humanity. A new sense of bitterness, hate, confusion, scars and stitches. This is all dramatic but even worse is after his hospital stay is the fact that deep down he's not scared and unable to sleep which leads him to slowly lose his mind. He hears voices and begins to see things from sleep deprivation. The newly turned twisted loner soon finds that the only way he's able to sleep at all is from pills, drinking any extreme high or from the aftermath of an adrenaline rush. Finding this high soon takes over his life. His new path turns him into a person he never thought he would be. He's finally alive and acting out trying everything that he never thought he never would have the nerve to try before which includes being a sexual deviant, drugs and even murder.

Something is about to happen in San Francisco. The mists make it easy to hide if hiding is what you want and even at the best of times reality there seems to shift. A gray man moves elegantly through the mists leaving bodies in his wake so that a tide of absences alerts Laney to his presence. A boy named Silencio does not speak but flies through webs of cyber information in search of the one object that has seized his imagination.
