Kindred Brutes: Animals in Romantic-Period Writing Christine Kenyon-Jones, 2017-03-02 Exploring the significance of animals in Romantic period writing this new study shows how in this period they were seen as both newly different from humankind subjects in their own right rather than simply humanity's tools or adjuncts and also as newly similar with the ability to feel and perhaps to think like human beings Approaches to animals are reviewed in a wide range of the period's literary work in particular that of Byron Wordsworth Coleridge Keats Southey Clare and Blake Poetry and other literary work are discussed in relation to discourses about animals in various contemporary cultural contexts including children's books parliamentary debates vegetarian theses encyclopaedias and early theories about evolution The study introduces animals to the discussions about ecocriticism and environmentalism in Romantic period writing by complicating the concept of Nature and it also contributes to the debates about politics and the body in this period It demonstrates the rich variety of thinking about animals in the late eighteenth and early nineteenth centuries and it challenges the exclusion of literary writing from some recent multi disciplinary debates about animals by exploring the literary roots of many metaphors about and attitudes to animals in our current thinking *Kindred Brutes* constitutes a genuinely original and substantial contribution both to Romantic period writing and to general debates about animals and the body

Byron's Temperament Bernard Beatty, Jonathon Shears, 2016-05-11 This volume is the first to draw together in eight original essays by international scholars some of the dominant strains in critical thinking about Byron's temperament and behaviour Using discourses and paradigms drawn from a variety of disciplines including literary studies history of medicine behaviourism and cultural studies its contributors explore and synthesise the development of behavioural strategies and their impact on his poetic manner Studies of the precise relationship of the poet's body and mind have often placed Byron within some of our modern psychological and medical frameworks without acknowledging that these diagnoses are bound up with the complex business of reading and responding to literature The topic of temperament uniquely allows concurrent discussion of body and mind within the context of Byron's writing as well as his life In this sense the book is primarily literary Recent scientific or quasi scientific theory is utilised and not discounted but the book insists upon the relevance of literary procedures and evidence broadly understood which are not dependent upon it and can contribute to enlarge or cast doubts upon some of its claims

Byron's Romantic Celebrity T. Mole, 2007-07-31 This book offers a new history and theory of modern celebrity It argues that celebrity is a cultural apparatus that emerged in response to the Romantic industrialization of print and culture It investigates the often strained interactions of artistic endeavour and commercial enterprise and the place of celebrity culture in history of the self

Taste Denise Gigante, 2008-10-01 *div* What does eating have to do with aesthetic taste While most accounts of aesthetic history avoid the gustatory aspects of taste this book rewrites standard history to uncover the constitutive and dramatic tension between appetite and aesthetics at the heart of British literary tradition From Milton through the Romantics the metaphor of taste serves to mediate aesthetic judgment and consumerism gusto and snobbery gastronomes and gluttons vampires and vegetarians as well as the philosophy and physiology of food The author advances a theory of taste based on Milton's model of the human as consumer and digester of food words and other commodities a consumer whose tasteful subliminal self remains haunted by its own corporeality Radically rereading Wordsworth's feeding mind Lamb's gastronomical essays Byron's cannibals and other deviant diners and Kantian nausea Taste resituates Romanticism as a period that naturally saw the rise of the restaurant and the pleasures of the table as a cultural field for the practice of aesthetics *DIV*
