

Low Flying Aircraft

Gregory Kent Stephenson

Low Flying Aircraft:

Low Flying Aircraft T. M. McNally, 2008 *Low Flying Aircraft* is a collection of interrelated stories in which one life is equally capable of influencing another under a sky the size of history. Spanning a period of fourteen years, the stories are connected by the pasts of Orion McClenahan and Helen Jowalski, childhood friends whose fathers shared a law practice in Chicago. In 1976, a freak accident changes their lives irrevocably, and the stories are about the people Orion and Helen grow up to be, the people they love, and the people they lose along the way. In *Paris the Easy Way*, Sam is a stable manager who steps in to the lives of others while trying to avoid his own. Troubled by the disappearance of his brother in Cambodia and his own complicated relationship with his brother's wife, Sam finally accepts the mysteries that surround him. *Lightning gravity* love I've never properly understood any of it. Anna, a columnist writing on the complexities that face young modern women, loses all sense of her identity while visiting her father, a dying man who wants a grandson almost as much as he wants a daughter like Milly, the heroine of his favorite western novel. The voices in this collection describe a world of uncertain borders where individuals are sustained by thin, brief moments of direction. Orion, a disillusioned photojournalist, sets himself free from his wealthy family and their Midwestern habits by discarding the things of his life: a clock radio, a blender, paperbacks. He will board a plane and fly to Central America in order to document the situation, do some good. In *Breathing is Key*, Sarah momentarily decides to stay with her abusive boyfriend because she doesn't know where else to go. I think we have a lot here, she says, and not all of it's bad. In story after story, personal histories unfold, always, what lies in wait is the possibility for connection. A brother who dies young, a first love, an abandoned husband, each persists in the realm of memory, adding texture and meaning to the lives they influence. In *The Future of Ruth*, a woman comes to understand that the proof of one's life lay in her death, and the trees that might spread out and over a soul. In revolutionary Nicaragua, on a ranch in Arizona, from a Vermont ski slope, the souls in *Low Flying Aircraft* soar, all hoping to catch a glimpse of the shape of things to come, of possibility.

In 1943, the RAF began a bombing campaign against Germany, the like of which had never before been seen. Over the next twelve months, tens of thousands of aircrews flew across the North Sea to drop their bombs on German cities. They were opposed not only by the full force of the Luftwaffe but by a nightmare of flak, treacherously icy conditions, and constant mechanical malfunction. Most of these crews never finished their tour of operations but were either shot down and killed or taken prisoner by an increasingly hostile enemy. This is the story of the everyday heroism of British

bomber crews in the days when it was widely believed that the Allies could win the Second World War by bombing alone Kevin Wilson has interviewed hundreds of former airmen about what their lives were like in 1943 the stomach churning tension of flying repeatedly over hostile territory the terror at being shot down or captured and the peculiar mixture of guilt and pride at unleashing such devastation on Germany **Aviation**, 1923 **Decisions** United States. Night and Into the Dream Gregory Kent Stephenson, 1991-10-30 The author of *Empire of the Sun* and other acclaimed novels and stories British science fiction writer J G Ballard is here given a penetrating analysis his work being explored in terms of its internal coherence its continuity and development and its mythic and metaphysical aspects Ballard's fiction is widely considered to be a critique of our secular rational technological culture but this study departs from earlier ones that label him a fatalistic or nihilistic writer obsessed with entropy devolution and dissolution in showing him instead to be most deeply concerned with the redemption and regeneration of the human psyche With Ballard's focus so much on visionary perception and mystical transcendence Gregory Stephenson argues for his placement in the Romantic visionary tradition A comprehensive examination of Ballard's work this study traces his output and accomplishments over four decades exploring their thematic development Ballard is considered in relation to a number of British and American writers of the post World War II era within and beyond the often too rigidly applied categorization of science fiction as well as to poets and novelists of the past
