**Magic by Design** Taylor Ellwood, 2020-01-04 Do you want magical workings that get consistent results? In *Magic by Design*, I teach you how to create your own magical workings instead of relying on magick spell books that aren't providing you the results you want. I'll show you how to simplify or enhance an existing magical spell to get better results. I'll walk you through how to apply the principles of magical design to create your own unique workings that get consistent results. I'll share multiple case studies where I show you how the principles of magical design were applied to create original magical workings that got results and explain why they got results. And as a bonus, you'll also learn how to create long-term magical workings and how to design your own magical systems. This is a practical magic book that shows you how to create your own magical workings and get better results with your magical workings.

The Anthropology of Magic Susan Greenwood, 2009-11-01 Magic is arguably the least understood subject in anthropology today. Exotic and fascinating, it offers us a glimpse into another world but it also threatens to undermine the foundations of anthropology due to its supposed irrational and non-scientific nature. Magic has thus often been explained away by social or psychological reduction. *The Anthropology of Magic* redresses the balance and brings magic as an aspect of consciousness into focus through the use of classic texts and cutting-edge research. Suitable for student and scholar alike, *The Anthropology of Magic* updates a classical anthropological debate concerning the nature of human experience. A key theme is that human beings everywhere have the potential for magical consciousness. Taking a new approach to some perennial topics in anthropology such as shamanism, mythology, witchcraft, and healing, the book raises crucial theoretical and methodological issues to provide the reader with an engaging and critical understanding of the dynamics of magic.

**Trithemius and Magical Theology** Noel L. Brann, 1999-01-01 An examination of Trithemius's magical theology which argued for the compatibility of magic and Christian doctrines and its influence during the Renaissance and Reformation.

**The Scent of Ancient Magic** Britta K. Ager, 2022-04-27 Magic was a fundamental part of the Greco Roman world Curses erotic spells healing charms divination and other supernatural methods of trying to change the universe were everyday methods of coping with the difficulties of life in antiquity While ancient magic is most often studied through texts like surviving Greco Egyptian spellbooks and artifacts like lead curse tablets for a Greek or Roman magician a ritual was a rich sensual experience full of unusual tastes smells textures and sounds bright colors and sensations like fasting and

sleeplessness Greco Roman magical rituals were particularly dominated by the sense of smell both fragrant smells and foul odors Ritual practitioners surrounded themselves with clouds of fragrant incense and perfume to create a sweet and inviting atmosphere for contact with the divine and to alter their own perceptions they also used odors as an instrumental weapon to attack enemies and command the gods Elsewhere odiferous herbs were used equally as medical cures and magical ingredients In literature scent and magic became intertwined as metaphors with fragrant spells representing the dangers of sensual perfumes and conversely smells acting as a visceral way of envisioning the mysterious action of magic The Scent of Ancient Magic explores the complex interconnection of scent and magic in the Greco Roman world between 800 BCE and CE 600 drawing on ancient literature and the modern study of the senses to examine the sensory depth and richness of ancient magic Author Britta K Ager looks at how ancient magicians used scents as part of their spells to put themselves in the right mindset for an encounter with a god or to attack their enemies through scent Ager also examines the magicians who appear in ancient fiction like Medea and Circe and the more metaphorical ways in which their spells are confused with perfumes and herbs This book brings together recent scholarship on ancient magic from classical studies and on scent from the interdisciplinary field of sensory studies in order to examine how practicing ancient magicians used scents for ritual purposes how scent and magic were conceptually related in ancient literature and culture and how the assumption that strong scents convey powerful effects of various sorts was also found in related areas like ancient medical practices and normative religious ritual     The Journal of Mental Science ,1926     **A Dictionary of the English Language** Noah Webster,1851
